

The Toronto World

NO. 15 YONGE STREET, TORONTO. A One Cent Morning Paper.

Daily (without Sunday) by the year... Sunday Edition, by the month... Daily (Sundays included) by the month...

D'Alton McCarthy and the N.P. Mr. D'Alton McCarthy has joined the knot who are calling for the reduction of the Canadian tariff.

The World is delighted to hear that we have these few fellows and that they pay a large share of the tariff. But Mr. McCarthy is merely talking through his Piocedilly hat...

This country must have a revenue; a protective tariff is the best means of raising it. It is not only the best means of raising it, but it is also the best means of protecting it.

Every year and again it becomes necessary for the World to repeat its program for the establishment of a free Atlantic service. This we do for two reasons. First, every little ship, and secondly, every little growth occasional waterways are calculated to help it along.

Canada has to stick to her N.P., and that is her only and sure salvation. All aboard for London! Every year and again it becomes necessary for the World to repeat its program for the establishment of a free Atlantic service.

RECORDS GLEANED AT THE CITY CEMETERIES YESTERDAY.

Alarming Increase in Deaths from Diphtheria—Forty died in Four Weeks of the Fall Disease. The Registrar has in his possession a list of the names of the deceased in the City Cemeteries for the past four weeks.

The chief feature of the mortality returns for November are an increase of 17 deaths from diphtheria compared with October, and the comparatively large number of deaths of old people—40 above 70 years of age—who were buried in the city cemeteries during the last four weeks.

In addition to the ordinary causes of death the following are notable in last month's list of mortality: Diphtheria, 40; typhoid fever, 3; scarlet fever, 2; pneumonia, 11; phthisis, 9; bronchitis, 4; diarrhoea, 4; enteric fever, 3; poisoning, 1; influenza, 1; cholera infantum, 1.

At Mount Pleasant Cemetery there were 24 fewer interments than in November of last year and 11 more than in October last. Thirty-four of the 70 interments were those of children; 15 were above 70 years of age.

At St. James Cemetery out of 112 interments 72 were children. A dozen were over 70 years of age. Yesterday a stone weighing 150 lbs. was found in the cemetery, which was supposed to be the stone of a child who had died of diphtheria.
