

PARKER'S DYE WORKS

To the Public:

GENTLEMEN'S CLOTHING.
Coats, Pants and Vests Cleaned, Dyed and Pressed in the most approved manner, without taking apart.

LADIES' JACKETS AND CLOAKS
Cleaned and Dyed made up, except Velvets and Fur, which should invariably be taken to pieces for Dyeing.

LADIES' DRESSES
Of every description Cleaned and Dyed. Dresses of expensive materials should be taken apart, but those of cheap material can have them very creditably done by simply removing the trimmings. Silks, Satins, Velvets and Follies must be taken apart for Dyeing.

SHAWLS
Every variety beautifully Cleaned and Dressed.

CURTAINS AND HANGINGS
Lace, Damask and Union Damask Cleaned or Dyed, leaving the cotton white as when new, or if required, the cotton can be dyed a good contrasting color. Moire, Rep and Wool Damask Dyed and Finished in a superior manner. Moire's richly watered.

FEATHERS
Cleaned, Dyed and Curled. Silk Handkerchiefs, Wool Squares, etc., Cleaned and Dyed.

THE SYSTEM OF FRENCH CLEANING
For removing stains of oil, grease, sugar, etc., from every kind of made-up garments has been adopted. This is very important and economical, as all tailoring or dressmaking is avoided.

Many persons are not aware of the extent to which Dyeing and Renewing of garments is practised by the best families in our cities. Dresses which pass for new and stylish are frequently old ones fresh from the hands of the Dyers. Often those who can best afford new prudently patronize a trade which gives the effect of new goods without the expense.

There are probably but few individuals or families who have not in their wardrobe clothes which it is desired to color-renew, would save a large expenditure for new garments.

With Ladies' Clothing the style is now such that by taking one dress and having it dyed to a bright fresh shade, with the addition of another color or material, an entirely new garment may be produced. Gentlemen's Suits which have been cast aside on account of being soiled or faded, by having them Cleaned or Dyed may save the expense of buying new ones.

Send for pamphlet. New edition.

To Merchants:

The space at our disposal in this column cannot be used to better advantage than by giving, in Mr. Parker's own language, his reasons for asking the co-operation of merchants:

"In Canada very few stocks of drygoods, millinery, etc., can be found that are free from pieces of goods which are in their original colors unaltered, mostly owing to the changeableness of fashions; such cannot be disposed of except at great sacrifice and loss, and even if sold are rarely found to give satisfaction to purchasers. Such sacrifices should not and need not be made.

"Many merchants do not fully realize the great importance of constantly turning over stock which represents capital, and are too apt to keep goods in store because they will not bring near their original cost price, forgetting at the same time that the longer such goods remain on hand the greater loss they cause of interest and principal.

"We have already been the means of converting many thousands of dollars' worth of old and unfashionable goods into choice, saleable stock, and we are fully assured that there yet remains millions of dollars' worth of undesirable drygoods evenly distributed with merchants throughout the Dominion.

"By sending to us for our wholesale price-list, and making a careful calculation, it will be found that it pays to have the old stock re-dyed, and that by doing so it is the only possible way that the capital invested can be recovered."
