NEW CITIZENS FOR CANADA

With a population of less than two persons to the square mile compared to England's six hundred, with only five per cent. of her rich agricultural land in the West under cultivation, with a heavy national indebtedness and only a few people to pay the interest in the form of taxes, the reason why Canada is hungry for immigrants can readily be understood. Immigration is the human rain without which Canada must parch and wither up.

If Great Britain had a large surplus of farmers and farm hands, Canada might not have to invite immigrants from any other source. But Great Britain is not so much an agricultural as a merchant and manufacturing centre, and every year grudges more and more the farmers or farm hands who leave her Colonies for the Dominions. She is quite willing to send out countless city folk in the hope that they may be transformed into farmers in their new environment, but she has fewer farmers to spare than many other countries from which Canada in the past has drawn excellent settlers. This is illustrated by the homestead entries. From 1897 to 1919, only eighteen per cent. of the British immigrants made entry for homesteads in Western Canada as compared to twenty-seven per cent. of the American immigrants and twenty-nine per cent. of the foreign born from Continental Europe.

In certain parts of Europe where there is a genuine land hunger, there is not enough land to go round. Five or six acres per family is all the land available in certain parts of Belgium, and even on that the thrifty Belgian frequently brings up a family of ten. The great immigration of Ukrainians from Central Europe which has given Canada nearly 300,000 of her Western farm population was due to the constant subdivision of farms which were only fifteen acres to start with. These Ukrainians have become a great asset to Canada, and have at their own expense erected four large colleges for higher education. Then again we owe our fine stock of seventy thousand Scandinavian settlers to the lack of sufficient land in Sweden, Norway, Denmark and Iceland.

Have these foreign born made good Canadian citizens? Read "The Education of the New Canadian," by Dr. J. T. M. Anderson, of Saskatchewan, and you will say "Yes!" In one or two groups at first there was opposition to the learning of English, particularly among the older people, but now it is difficult to find sufficient teachers to meet the demands of the schools. And it is not only in the schools where you find the foreign born. More than half the students at the University of Manitoba are of foreign parentage. You find children of the foreign

born as leaders in the professions, migrants who helped to build up and in the Cabinet of at least one Provincial Government. Canada is after all only repeating on a larger scale the welcome to and the assimilation of the foreign born which has characterized the history of the Mother Country. The Flemish weavers and the Huguenots who found refuge in England, are a few of the foreign born im-

Children Cry for Fletcher's
CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.
