

Keep Milch Cows In Good Health

IT PAYS.—It is useless to expect a lean, run-down cow to have a good flow of milk, though she will eat more than an animal in good flesh. The difficulty is the nutriment is not all extracted from the food because her digestion is out of order.

Dick's Blood Purifier

will strengthen the digestion and make the food produce milk. It will cost but fifty cents to try it on the poorest cow you have and you will get back your money with interest in a few weeks.

For sale by Druggists, at general stores or sent post paid on receipt of 50 cts. Dick & Co., P. O. Box 482, Montreal.

ECONOMICAL

For all classes of FARM STOCK.

Mr. Cyrus Shaw, M.L.A., of P. E. I., and president of the New Perth Creamery of New Perth, P. E. I., which is one of the Dominion Government Stations, informs us, as do others, that one teaspoonful of Herbageum with a gallon of skim milk makes it fully equal to pure new milk for calves; that the calves thus raised are in every respect equal to those receiving new milk. As there are 63 heaped teaspoonsful in one pound of Herbageum, that means that one pound will make 63 gallons or 504 lbs of skim milk equal to new milk at a cost of 1 1/2 cents or 2 1/2 cents per 100 lbs., while the 'country gentleman,' some time since, stated that it took 57 10 lbs of pure flax seed to do that, which, at 4 cents per lb, means 23 cents for flax seed, against 1/2 for Herbageum. Flax seed is additional food value. Herbageum is not a food value, but prevents waste of ordinary food by ensuring perfect digestion, and is economical for general use with all classes of stock. And we are credibly informed that the extra return from food when Herbageum is used is such as to make 500 lbs of any kind of fodder or grain, or even the high class foods such as oil cake, cotton seed and pure flax seed, equal to 600 lbs of the same without it. It has been proved time and again that butter and cheese returns from cows fed on Herbageum are from 10 to 25 per cent in excess of those not receiving it and the animals are kept in better health and flesh, so that they are much more readily put in shape for the butcher when sale is desirable. The extra returns and fine condition richly compensating for the small outlay, as the daily cost each for horses, cows, heaves and hogs is but one cent, and only one-tenth of a cent per day for calves, colts, sheep and young pigs.

The DURAND Fire Extinguisher

Manufactured by

THE DURAND FIRE EXTINGUISHER CO., (LIMITED)

It pre-eminently the most efficient Fire Extinguisher ever placed before the public. It will immediately arrest the progress of a severe fire. It is easy to handle and operate; a child can use it as well as a grown up person, and they should be in every household.

The great value of the Durand Extinguisher for Manufacturers, Public and Religious Buildings is already well appreciated, and many such buildings are provided with a number of them. The Durand Extinguisher is approved by all competent authorities, amongst others:

M. S. M. P. Benoit, chief Fire Dept., Montreal. J. H. Carrière, chief Fire Dept., Vancouver. H. C. C. Coats, Dept. Public Works, chief Inspector for Dominion. A. Raza, Provincial Architect, from Government Inspectors, etc., &c.

The Durand Extinguisher has already demonstrated its efficiency on many occasions when used in an emergency, among others may be cited the following, where prompt use of Durand Extinguishers prevented large conflagrations and saved much valuable property:

Belgois Hotel, Sault au Recollet. F. H. Duboc, of Duboc, Desautels & Co., 1513 St. Catherine St. Albert J. et é, upholsterer, 1243 Ouzario St. John Millen & Son, 1325 St. Catherine St. Gravel & Boulard, St. Lawrence St. H. Heullac, manufacturer of church ornaments, Notre Dame St. J. A. Rossea, furniture mfr., St. Anne de la Pérade. Tonnasait & Larivière, Sault-au-Recollet. Ladira's Benevolent Institution 31 Herthel St. Montreal. Rev. G. M. Pailleur, curate, Maisonneuve. Mme Bonaventure Depot. Ferd. Malhol, St. Jean Deschallons.

All of whom give certificates of their excellent working. By providing your premises with a sufficient quantity of Durand Extinguishers you may lower the cost of your insurances. The Company also manufacture Extinguishers of larger sizes, 2 and 5 gallons, especially for the use of Fire Departments of cities, villages and municipalities to take the place of Habcoks or other apparatus of that kind. The Montreal Fire Department have already purchased 12 of the 5 gallons size. For Prices, &c., add recd:

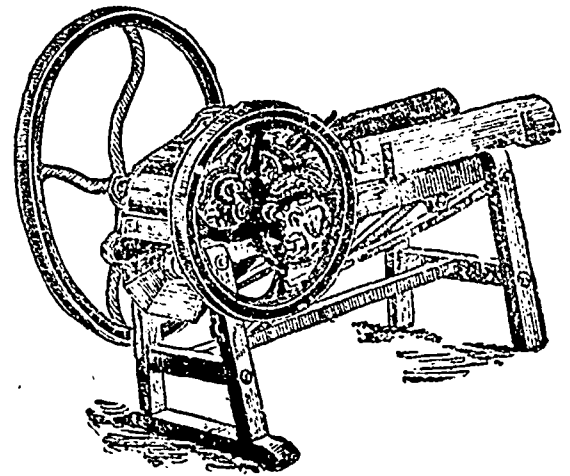

Glass Fire Extinguisher, same as set above, \$24 per doz. Large " " prices given on application.

PATENTED JUNE 1891

AND NOVEMBER 1894

HAY PRESS "LA CANADIENNE"

The ONLY ONE which works on uneven Ground. The ONLY one which you can fix without taking off the front wheels.

You NEED A HAY PRESS. Don't buy, then, before seeing our new press for 1895. The HAY PRESS "La Canadienne" is provided with an alarm bell, and we are the only persons who have obtained a Patent for this new invention. The FULCRUM goes 33 inches which is 9 inches more than any other press. This year, we have made a new capstan which gives much more lightness to the press. We have also a new Folder which finishes off work without breaking the hay, and folds it in a uniform manner. See our New Press before making your purchase. The whole mechanism is in malleable cast-iron and steel, which gives more lightness and strength than any on the market. Write for prices, catalogue sent gratis.

We also manufacture the VIBRATIVE Threshing Machine for one and two horses, also LIGN Machine, Spring Harrows of three different kinds, Seeders with spring teeth. Agents wanted everywhere. G-95 12t J. B. DORÉ & FILS, Manufacturers, Laprairie, Que.

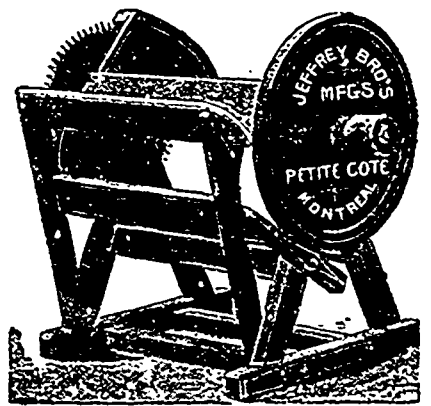

JEFFREY BROS. CO. VISITATION (Near Montreal)

CORD WOOD SAW

It is intended to be run by horse power. It is very simple, and not liable to get out of order. The Table swings and the wood is pushed up to the Saw. It will cut wood nine inches in diameter, and is just the thing where wood is cut in short lengths.

We have full confidence in it, as experience has proved, and we do not hesitate to recommend it as a great Time and Labor Saving Tool. Saw furnished to 26 inches diameter.

We also manufacture Long Wood Saws and Drag Saws with all the latest improvements and every description of Agricultural Implements.
