**THE LARGE 103, YONGE STREET**

Daily the banners are brought from afar—  
 On the coast the confusion, the cry of war;  
 And the tope now heard in the prison's interior  
 Are the strength of the army and terror of the peer.

But Britain decies, and decies not in vain—  
 That she shall the peace of the Nation maintain  
 That while Nicholas thunders, or Louis thunders near  
 Her standard shall float o'er each threatened shore.

And the tri-colored flag and the ensigns are hoisted,  
 Their armies are led and their fleets are combed,  
 And the sons of each nation in their valiant deeds  
 Are determined to conquer or fall in their beds.

Yet tho' the war rage the thing is quite clear  
 You must have new clothes at this time of the year.  
 Nor would it be prudent or wise to delay  
 In making your purchase much later than May.

Now, PEARSON has studied as statements below  
 In reference to fabrics and prices will show—  
 By securing the products of various climes  
 To make large provisions for these wonderful times.

His Stock is neither inferior or small  
 But such as he trusts will satisfy all;  
 And he therefore expects very early to see  
 His esteemed patrons at the ONE HUNDRED AND THIRTY.

**M. PEARSON**

His Marble, which he imports direct from the native Quarries, is of a very superior quality, and comprises every variety of European and American Marble in demand in this Country, and as he employs none but first class Sculptors in its manufacture, his work is pre-eminently distinguished for originality and beauty of design, and skill in execution. **Protection from Lightning,**

**BY SPRATT'S PATENT.**

**LIGHTNING RODS** manufactured by E. V. Wilson and H. PIPER & Brother, 50 Yonge Street. The Subscribers are the only authorized agents for the sale of these valuable rods, in the Canada. Manufactured and for sale, wholesale and retail, at No. 50, Yonge Street, Toronto.

**CAUTION**—Altho' no man to protect your buildings without first examining the points of his rods, and if they have not the Platinum Wire in the point, they are not genuine. The coating of them is of a composition metal that never rusts, retaining its brightness for years. The metal is soft and easily cut with a knife, yet sufficiently hard not to melt under the influence of electric fluids. Look out for rods manufactured at St. George, C. W., they purport to be Spratt's points and rods but are not. The points are made of steel, highly polished, but will become coated with rust after the first night's exposure to the atmosphere, consequently rendering them useless. Always ask for the Agent's Certificate of right in sold, and be sure to notice the stamp—**SPRATT'S IMPROVED POINT**—this is on the points near the base.

**Notice.**—No Policy of Insurance covers losses by Lightning unless burned down or set on fire.
