

"Delicious!"

It's the finest asparagus you ever put in your mouth—and you'll say so yourself when you taste it. For there's nothing like *Libby's*—anywhere—at any price. *Libby's* Asparagus comes from the "Garden Spot" of the country—the Sacramento River Islands.

There they grow the finest asparagus in the world. Big, white, tender, meaty stalks—delightful to see and delicious to taste.

And there, not a stone's throw from the fields, we built a *Libby* kitchen, to which comes daily the pick of the crop.

And the best of it is we save—for your table—the delicious taste of this superb

California Asparagus

For the day the stalks are cut, they go straight to the *Libby* chefs—and what the *Libby* chefs do—well, just you buy a can of *Libby's* California Asparagus and see for yourself.
