#### ST: JOHN'S COLLEGE, FORDHAM, die and Westchester County, N.Y.

THIS Institution is incorporated with the privilege of a University, and is conducted by the Fathers of the Society of Jesus. It is situated at Fordham, in a most picturesque and healthy part of the County of Westchester, eleven miles distant from the City of New York and three from Harlem-very easy of approach at all seasons, either by private conveyance or by the railway, which lies along the foot of the beautiful lawn in front of the College.

The grounds are extensive, and well laid out for College purposes.

The fathers, desirous of bestowing the most conscientions care upon the domestic comfort of the pupils, have deputed to this important and highly responsible department persons of tried skill, whose training and experience fit them for the peculiar wants of an institution which purports to be one large family. The students are in three distinct divisions—the senior; the middle, and the junior—each having its separate halls and separate play-grounds, and each presided over by

distinct officers and professors.

The system of government being paternal, the observance of established discipline is obtained by the mild, persuasive, yet firm means of rightly understood parental authority

Letters from or to students, not known to be from or to parents, are subject to inspection.

Books, papers, periodicals, are not allowed circulation among the students without having previously been submitted to authority. The students are not allowed to go beyond the college precincts unless accompanied by their professors or

Visits of students to the city are not sanctioned except for such as have their parents residing in the city; and the interests of the studies, as well as those of the moral training, are found not to warrant their frequency over once in months. Even students not having their parents in New York may sometimes be firmished the means of visiting the city. But for no case of such absence from college will permission be granted except at the express wish of the parents or guardians, and for the reasons submitted to the president.
There will be a recess of one week at Christmas, but none

The regular classical course of instruction embraces the Hebrow, Greek, Latin, English, and Fronch languages: Religion, Electrica, Poetry, and Rhetoric; Geography, Mithology, and History; Arithmetic, Book-keeping, and Mathematics: Natural, Intellectual and Moral Philosophy.

There are two semi-annual examinations: the first towards the end of January, the second before the annual commencement towards the middle of July.

At any time during the year, and especially at the first examination, it any one be found worthy of passing up to a higher class he will be promoted; and such promotion shall be held equivalent to the honors of the class from which he passed up. Candidates for the degree of Bachelor of Arts are required to undergo an examination in Natural, Intellectual and Moral Philosophy, and in Mathematics, before the faculty of the University. They must, besides, have given evidences of their progress in the Greek and Latin languages and in literature.

Candidates for the degree of Master of Arts must, for the space of two years, have creditably pursued some liberal and learned profession.

When it is the wish of parents or guardians to have sons

or wards fitted for commercial pursuits, means are taken to direct and adapt their studies accordingly.

There are two preparatory classes, in which beginners are

taught spelling, reading, writing, the first elements of English Grammar, of Geography, and Arithmetic.

The German and Spanish languages are taught, if required, but together with music, drawing, and other similar accomplishments, form extra charges. Twice a week there is a gratuitous lesson of vocal music for the beginners of the prearatory classes.
The Collegiate year commences on the first Monday of

September, and ends about the 15th of July, with a public ex-hibition and distribution of premiums.

TERMS:

Board, Tuition, and Use of Bedding, per Annum, payable half-yearly in advance, w. s nog and Mending of Linen,
Physician's Fees, \$200 15

N.B.-1. There is an additional charge of \$15 for students

remaining during the summer vacation.

2. For a few years past, owing to the high price of every kind of provisions, it was found necessary to call on the parents for the additional charge of \$20. This transitory measure, however, is not likely to be kept up unless on necount of the pressure of the hard times and with the agreement of the parents.

ment of the parents.

Book, stationery, clothes, linen, &c., are also furnished by the College at current prices, or may be procured by the parents or guardians residing in the city. Each student, on entering, must be provided with three suits for summer and three for winter; with at least six shirts, six pairs of woollen and six pairs of cotton socks, six pocket handkerchiets, six towels, four cravats, four pairs of shoes or boots, one pair of overshoes a death, or constant.

overshoes, a cloak or overcoat; a silver spoon, a silver fork, and a silver drinking cup, marked with his name.

No advances are made by the institution for articles of clothing, or for any similar expenses, unless an equivalent sum be deposited in the hands of the treasurer of the College. With regard to pocket-money, it is desirable that parents should allow their sons no more than a moderate sum, and that this be left with the treasurer of the College, to be given

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in van tried all the wonderful medicines of the day, as that a communication of the matters; and alone old store will.

tried all the wonderful medicines of the day, as that a common weed growing on the pastures; and along old stone walks, should cure every humor in the system, yet it is now a fixed fact. If you have a humor it has to start. There are no its nor ands, hums nor ha's about it suiting some cases but not yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know the effects of it in every case. It has alternated down some of the greatlest owns awardone in Messagher. of boston. I know the energy of it in every case. It has already done some of the greatest cures ever done in Massachusetts. I gave it to children a year old; to old people of sixty. I have seen poor, puny, wormy looking children, whose flesh was soft and flabby, restored to a perfect state of health by one beatth.

To those who are subject to a sick headach, one bottle will always cure it. It gives a great relief to entarrh and dizziness. Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy; but where there is any derangement of the func-tions of nature, it will cause very singular feelings, but you must not be alarmed; they always disappear from four days to a week. There is never a bad result from 11; on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encounums of it that ever man listened to. . .
