

months, when the skin neglects its duties and the kidneys are overworked. If the condition remains neglected the probable result will be sooner or later a pronounced attack of rheumatism or grippe in one or another of its forms. All that is needed to induce such an attack is a sudden change in the weather or the exposure on the part of the patient to cold or wet or to a combination of both. This is due to a latent rheumatic diathesis to which every adult is liable. The necessity of a powerful eliminant in every prescription for rheumatism and grippe is self-evident. While anti-pyretics and anti-periodics may slightly stimulate the excretions and relieve congestion, thereby controlling certain features of the disease, a complete cure cannot be expected until the poisons are thoroughly eliminated from the system and the diseased organs enabled to resume normal functions. In the treatment of all rheumatic, neuralgic, and grippy conditions, Tongaline, by promoting the absorptive powers of the various glands which have been clogged, and by its stimulating action upon the liver, the bowels, the kidneys and the skin, will relieve the pain, allay the fever, eliminate the poisons, stimulate recuperation and prevent sequelæ.—J R. Phelan, M.D., Oklahoma City, Okla., Editor *Oklahoma Medical News Journal*.

HAVE used your Resinol Soap and Ointment with much satisfaction. I have for years suffered at intervals with scalp itching, have used most everything with no avail until I tried a massage with the Ointment. The result was great, scalp easy, no dandruff, and hair ceases to fall out. I try to keep it on hand.—C. D. Driscoll, D.D.S., Paoli, Ind.

IN a paper on "Sexual Neurasthenia in Men," Dr. Arthur E. Mink, of St. Louis, Mo., says: "In the treatment of sexual neurasthenia the tonics, such as iron, arsenic, strychnine, quinine, gold and zinc, are of value in many cases. The most efficient, in my opinion, is Sanmetto. It seems to act directly upon the genito-spinal centre and improves its nutrition. Many cases, as I have said before, are remotely due to gonorrhœa, and hence Sanmetto is doubly of value in such cases."

A PLEA FOR THE TABLET.—"In the first place, compared with pills, tablets have no insoluble coating, nor, when properly made, have they any insoluble excipient added to their composition. For example, Antikamnia Tablets are made by simple
