

It is intended to establish a Central Board
of Technical Education to be based on projects of
the national character, in order to utilize the resources
of the various groups of countries belonging to the
their desire to serve.

There are many ways to provide for continuing
education, but the most important is to have a
continuous flow of new ideas and methods of
instruction. It is essential that the national
boards of technical education should be organized
in such a way as to have a continuous flow of
new ideas and methods of instruction. It is
essential that the national boards of technical
education should be organized in such a way as
to have a continuous flow of new ideas and
methods of instruction.
