

SUMMARY OF FISHERIES AGREEMENT

PAGE FOUR

<u>SPECIES</u>	<u>AREA</u>	<u>MANAGEMENT CATEGORY</u>	<u>PERCENTAGE SHARES CANADA / USA</u>	<u>ACCESS PROVISIONS</u>
MACKEREL	3,4,5, and 6	A-for setting of TAC B-for regulation of domestic fisheries two sides will con- sult in advance of establishment of regulations and allocations to third parties	40.0% / 60.0%	Limited to each country's own waters.

FOOTNOTES:

- (1) The arrangements for Canadian access to loligo squid and U.S. access to redfish off Nova Scotia is only for a ten-year duration at which time it will be renegotiated.
- (2) The management categorization of three herring stocks to be reviewed at the end of three years and may be altered if the two sides agree adequate data is available to support such a change. In any case, at the end of six years the management categories will be reviewed and if necessary their determination submitted to dispute settlement.
