

EXPLANATORY NOTES.

1. The underlined words are new. The new subsection (2) enables the Governor in Council to make regulations under section 14 with respect to the described grains when intended for consumption by live stock. As it now reads the Act does not provide authority by regulation to require the bagging or packaging of whole grains at standard content weights, as has been required of ground grains and other feeding stuffs.

2. Section 14 authorizes the Governor in Council to make regulations for specified purposes. The new subsection (*dd*) is self-explanatory.
