

McGILL UNIVERSITY
DEPARTMENT OF CHEMISTRY

R. F. RUTTAN, DIRECTOR

Sir Arthur Currie, 2.

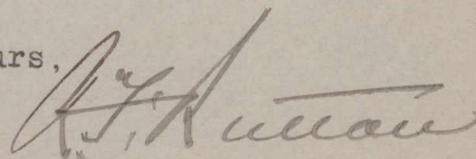

MONTREAL.

4 - 3 - 22.

to adapt the huge storage shed proposed for the use of the Laboratory in Ottawa. It is of great advantage to the industry to have the Forest Products Laboratory so intimately associated with the Faculty of Applied Science, as it thus directs of students to this field of industry and ensures a continuous supply of well trained men. Suggestions regarding research and investigations for the Forest Products Laboratory do not come from the officials of the Government, but from the industries and many of them from the members of the University staff.

It would be a great pleasure to me to assist you in any way towards keeping the Forest Products Laboratory in Montreal and bringing it into even closer relation to the University than it is at the present time.

Sincerely yours,

RFR/JH

P.S.: - I am returning you the Premier's Letter.
