SUMPTUARY LAWS NOT NOW IN FAVOR

Judge Durand Sees No Encouragement for Plebiscite on Prohibition.

Regarding the question of a provincial plebiscite on the matter of prohibition, Judge Durand, head of the Personal Liberty League, said last night: "I could not be otherwise than amused at the statement credited to Mr. Ben Spence, that there was no reason to feel blue over the result of the Ontario elections. If the prohibitionists, radicals and advocates of sumptuary legislation can find any encouragement in the returns of the recent election they are cast-iron optimists. "Everybody in Ontario except the Dominion Alliance seems to realize that the people have spoken definitely against any further sumptuary legislation, and the officers of the alliance also entertain that opinion. It is not necessary for me to state what the Personal Liberty League will do in the event of the Dominion Alliance preparing and presenting to parliament the draft of a new bill to submit a provincial plebiscite, nor is it necessary to speculate as to what parliament would do with such a bill. For the good reason that both the Rev. Ben and F. S. Spence are entirely too experienced in the game of politics to take chances on another such defeat as their organization has just sustained. And for the same reason I feel certain that there is no very immediate prospect of a referendum on the matter of putting Toronto in the prohibition column. Political struggles of such magnitude require months and years of preparation, and nobody knows this better than the officers of the Dominion Alliance, who are not likely to be swayed by the clamour of their radical following."

SMALL ADVANCE IN ACREAGE OF WHEAT

Condition of Crops as Officially Reported, Fairly Satisfactory.

(Continued From Page 1.) 600; turnips, etc., 175,000, against 186,400; sugar beets, 15,500, against 17,000, and corn for fodder, 317,000, against 303,650. It will be noted that the area under flax seed is 339,900 acres less than last year. Some Detention. The condition of spring sown crops at the end of June was on the whole fairly satisfactory, except in regard to hay and clover which, having been affected by the prolonged drought, has failed to reach the standard of the previous year. The condition of the crops has improved since the middle of June, and is now as follows: Fall wheat, 73.3; spring wheat, 86.3; all wheat, 84.5; oats, 87.3; barley, 86.2; rye, 84.7; peas, 86.9; mixed grains, 87.3; alfalfa, 81.5, and pasture, 83.2. The percentage of the standard condition for wheat, rye, barley and oats represent the promise of yields per acre as compared with the average of the past six years, 1908-13, the percentage of the standard condition for wheat, rye, barley and oats represent the promise of yields per acre as compared with the average of the past six years, 1908-13, the percentage of the standard condition for wheat, rye, barley and oats represent the promise of yields per acre as compared with the average of the past six years, 1908-13.

Estimate of Live Stock. Estimates compiled from the reports of correspondents as to the numbers of farm live stock at the end of June result for all Canada as follows: Horses, 2,947,738; milch cows, 2,208,045; other cattle, 3,363,531; sheep, 6,723,244; and swine, 3,434,261. As compared with last year these figures show an increase in the case of horses, but a decrease for each of the other descriptions. In making their estimates this year correspondents were requested to take specially into account the known large exportation to the United States of farm live stock consequent upon the reduction of the duties on the returns by the province and also many correspondents reported that new breeding stock will largely make up for deficiencies caused by these increases in the exports. It is apparent that the diminutions shown were caused by such exports. Tabulation of the returns by the province shows that the decrease is mainly in the eastern part of Canada, since satisfactory increases in the numbers of horses are shown for the North-west provinces, and especially Saskatchewan and Alberta.

ROBBING WOMEN OF THEIR HEALTH

Anaemia Unless Checked Passes Into Hopeless Decline

Anaemia is like a spectre that steals on you unawares and drives all happiness out of existence. It is a thief that robs you of your life and energy. Thousands of women in this country are the victims of anaemia. What is anaemia? It is a condition which spares neither rich nor poor, young nor old. It robs women of their health, their vitality, their beauty, of everything that gives life and woman her charm. The chief symptoms of this trouble include a distaste for food, prostrating headaches, nervousness, dizziness, and heart palpitations, and a constant feeling of wretchedness.

The only way to effect a cure is to increase the blood supply—to make it pure, rich and red. Dr. Williams' Pink Pills have saved thousands of young girls and women from the early fate that threatened them through anaemia's ravages, for these pills enrich the blood, stimulate the circulation, nourish the nerves, and restore the beauty and perfect health that make women attractive. If you are a victim of bloodlessness in any way, do not let it run into a hopeless decline, but begin the use of Dr. Williams' Pink Pills today. The following bit of evidence proves the worth of this medicine. Mrs. Maurice Sims, Liverpool, N.S., says: "Dr. Williams' Pink Pills have been a blessing to me. About two years ago I was so badly run down that I had to give up all work and go to bed. My husband and I decided to do so. In a few months as they thought I was going into consumption. The doctor who was attending me changed his medicine several times, but it did me no good and I began to feel very much discouraged myself. One day a friend advised me to try Dr. Williams' Pink Pills and I decided to do so. In a few months I felt much better and I continued taking the pills for a couple of months until I was again in perfect health. I believe that if it did me no good and I should always be very grateful for what they have done for me."

You can get these pills from any dealer in medicine or by mail at 50 cents a box or six boxes for \$3.50 from Dr. Williams' Medicine Co., Brockville, Ont.

Leif Ericsson—The Discoverer of America

THE FIRST WHITE MEN to tread American soil were Leif Ericsson and his sea-dashed Viking crew. This was nearly a thousand years ago, when the Scandinavian peoples ruled the seas and held the secrets of navigation. The history of the fair-haired, liberty-loving sons and daughters of Sweden, Norway and Denmark is rich in song and story. We have millions of these splendid folk in our own land, and wherever the standard of Liberty and Human Progress has been raised they are found in the front rank, bravely fighting for the Right. Better citizens or greater lovers of Personal Liberty are unknown. For centuries our full-blooded Scandinavian brothers have been moderate users of Barley-Malt brews. Who can truthfully say it has injured them in any way? It is the ancient heritage of these peoples to revolt at Prohibitory Laws, and their vote is registered almost to a man against such legislation. For 57 years Scandinavians have been drinkers of the honestly-brewed beers of Anheuser-Busch. They have helped to make their great brand BUDWEISER exceed the sales of any other beer by millions of bottles. Seven thousand, five hundred men, all in all, are daily required to keep pace with the natural public demand for Budweiser. ANHEUSER-BUSCH • ST. LOUIS, U.S.A.

IT MADE ME STRONG AGAIN

Read what Mr. Leonard J. Missen, Welland, Ont., says: "Dear Sir—I must tell you that I am pretty strong again and feel a great deal different now than what I did before. Your Belt has certainly worked wonders with me, and it is in good condition yet. Hoping you will meet with continued success, as I am sure your Belt is fully what you claim it to be." Also Mr. Clarence Waybrant, No. 13 Spencer Avenue, Toronto, Ont.: "Dear Sir—I have worn your Belt for one month and feel much better every day. It has cured my nerves, and I feel perfectly well and strong, and can recommend it to any one with weak nerves." Give me one broken down from dissipation, hard work or worry from any cause which has sapped his strength. Let him follow my advice for three months, and I will make him as well in every respect as anyone of his age. Letters like these tell the story which means a good deal to a sufferer. They are a beacon light to the one who has become discouraged from useless doctoring. I get letters every day like the above. My Belt has a wonderful influence upon tired, weak nerves. It braces and invigorates them and stirs up a great force of energy in a man. Are you weak or in pain? Are you nervous or sleepless? Have you Rheumatism, Weak Back, Kidney Trouble, Weak Stomach, Indigestion or Constipation? I can give you the blessing of health and strength. I can fill your body with health and make you feel as you did in your youth. My Electric Belt is worn while you sleep. It gives a soothing, genial warmth into the body. This is life—health. Tell me where you are and I'll give you the name of a man in your town that I've cured. I've got cures in every town. That's enough. You need the cure. I've got it. Come and get it now. The pleasurable moments of this life are too few, so don't throw any away, while there's a chance to be strong.
