## Stationary and Portable Saw Mills

I make these mills with any number of Head-blocks spaced any distance apart. Equipped with Frost-dog, Knight dog, or Boss dog, Rope feed, or Rack and Pinion feed. With or without Over Log Saw Guide.

Having extra wide face friction pulleys, they are more durable and quicker acting than any others and make a first class tie mill. One of my customers reports 1,600 R.R. ties per day with our saw.

I furnish them with or without Track Sill frames or in any desired way.

Write for further particulars and catalogues.
