

Dr. John Gilmary Shea's list; Mr. William F. Poole's Index of Periodical Literature; Articles on Hennepin and La Salle, in Volume four of Mr. Justin Winsor's "Narrative and Critical History of America," together with other references as noted, confirming the same as far as possible, with those in my possession, such being marked in the list with a star.

The references to La Salle, in the "Narrative and Critical History," have not been quoted in full, as by so doing it would have extended the original limit of this work.

A handwritten signature in dark ink, reading "G. M. Remington". The signature is written in a cursive style with large, sweeping loops and flourishes, particularly in the last name "Remington".
