WEEKLY REVIEW.

The markets held here the past six days were characterized by lively trading in every department. The majority of the stuff offered was sold at about the same prices paid a week ago here. Grain—Old oats continue to be the principal grain offered. There is a good demand. Sales are now made at \$1.10 to \$1.15 per bushel. New oats are coming in very fast. They sell at 90c to 95c per cwt.
Hay and Straw—Owing to the light supply and the fact that there has been a brisk demand, and prices have advanced. Sales are made at \$10 to \$11.50 per ton. The majority of the loads offered at \$11 per ton. Prices are likely to go lower, as the number of loads offered is on the increase. The farmers are predicting that higher prices will be paid for this season's crop of hay than was paid a year ago as they say that this year's yield will be fully one-third less than a year ago. There will be a bigger crop of straw this year, and the prices of oats are likely to be considerably lower, which will help to keep the price of hay down. Straw is in demand at \$5.50 per ton. Prices will be lower as soon as the farmers have threshed a few loads.
Butter and Eggs—Butter is scarce. Prices are a shade higher at 20c to 22c for crocks and 23c for pound rolls. Eggs are firm at 16c to 17c per dozen for crates and basket lots.
Fruits—Pears are dull at 35c to 50c per 12-lb. basket. Plums sell at 50c to 75c for the 12-lb. basket. Pears are scarce at 90c to \$1.25 per bushel. Apples have sold better the past week. Prices range at 30c to 50c per bushel. Thimbleberries sell at 40c per box.
Potatoes—The earlier varieties have been marketed, consequently the supply is light. Sales were made at Tuesday's market at 50c to 60c per bushel.
Poultry—Sales are fairly brisk at 50c to 60c per pair for spring chickens, or 60c to 90c per pair for old fowl, or 70c to \$1 per pair for ducks. There will be a larger crop of straw this year, and the prices of oats are likely to be considerably lower, which will help to keep the price of hay down. Straw is in demand at \$5.50 per ton. Prices will be lower as soon as the farmers have threshed a few loads.
