

“ Sir Joseph was always a leading friend of education in Montreal and had served as a member of the Board of Governors since 1876. More especially in later years, since his retirement from the great work of his life—in connection with which he will always be remembered in the history of the Dominion—he displayed a warm interest in the work of the Board, and freely placed his time at its disposal; while his eminent business capacity rendered his services of the utmost value to the University in connection with its recent rapid extension.

“ The Board would further convey to Lady Hickson, and to the members of her family, this expression of its sympathy in the great bereavement which they have sustained.”
