THE RATHBUN CO'Y  
DESERONTO, ONT.

Locks,  
ing

MANUFACTURERS OF THE

“STAR BRAND” PORTLAND CEMENT

Exhibition.  
waterworks

Unexcelled for UNIFORMITY, FINENESS, and  
STRENGTH when used with sand. . . .

Owing to fineness, “STAR” will carry a larger proportion of  
sand than coarse ground cements.

EAS.

14,000 barrels “STAR” used in Toronto alone during the past  
season of 1893. Also used in Public Works by Ontario and  
Dominion Governments.

WE ALSO MANUFACTURE THE

“ACME” AND “NAPANEE”

BRANDS OF

HYDRAULIC CEMENTS

TO.

The “ACME” is unsurpassed for strength, being an intermediate  
between a high-class Portland and native cement.

Good shipping facilities by rail or water.

Write us for prices, etc.
