GREAT NEED OF DIRECTOR HERE

Fletcher Peacock Puts Building Matter in Second Place

Field in St. John of Large Possibilities and Practically Is Untouched — Future of Hundreds of Boys and Girls Involved — Suggests Big Vocational High School.

For the benefit of between 1,200 and 1,400 boys and girls of high school age, who are not in school, Fletcher Peacock, director of vocational training for the province, said yesterday St. John and Fredericton should organize a big vocational high school with a special teaching staff. Mr. Peacock left last evening on his return to Fredericton.

Speaking of vocational work here he said that the great need at present was a director or supervisor competent to control the work and carry through development. The success encountered in connection with the night schools here was indicative of the interest in the matter and the fact that so comparatively few boys and girls pursued a high school course showed the necessity of giving them instruction in industrial, commercial, agricultural or other branches of training. There was now in the province one vocational day school for boys and girls not in high school.

This was at Woodstock and its course was being followed with close attention by other counties. Three other counties, Kings, York and Westmorland, had already taken action favorable to the project.

Mr. Peacock said he greatly hoped to see a beginning made towards a day school here next fall, even if only in temporary quarters, under a skilled director.

At present he said the attendance was keeping up well at the evening classes, but the work had advanced to such a stage that the services of a director were imperative, particularly to oversee the training and to help the teachers organize for proper treatment of their subject matter.

Among the ideas proposed in connection with the work for next year was a night class for teachers to enable those

having practical knowledge of their trade to impart that knowledge in the proper way to pupils. During the coming summer at Woodstock, from July 6 to August 6, there was to be a special summer school for vocational teachers at which quite an interesting programme would be carried out.

In connection with the local work, Mr. Peacock spoke of a visit being made at present to the city by A. H. Whitman, a graduate of the Nova Scotia "Tech," and

having practical knowledge of their trade to impart that knowledge in the proper way to pupils.

At present he said the attendance was keeping up well at the evening classes, but the work had advanced to such a stage that the services of a director were imperative, particularly to oversee the training and to help the teachers organize for proper treatment of their subject matter.

Y. W. P. A. Chooses
Miss Fairweather
as New President

A resolution was passed condemning
the Hearst publications and another
pledging the society to "buy in Can-
ada" as much as possible.

Miss Boyer reported on supplies of
fruit and soldiers in the East-St. John
hospital. Miss Dodge reported for the
committee having charge of the dance
in the garden serenade's success, and Miss
Barber for the Anti-Tuberculosis Society
committee. Various charitable gifts were
made by the meeting towards deserving
cases. Miss Borden and Miss Coffey were
appointed a committee to arrange a con-
cert. Miss Dodge told of arrangements
for a series of dances after Easter with
a committee from the G. W. V. A.

Miss Alice Fairweather, by acclama-
tion, was elected president of the Y. W. P. A.
at its meeting in the G. W. V. A. hall
last night. Miss A. Brock's resignation
having been received with great regret.

Miss Fairweather in accepting the presi-
dency of the society for which her ef-
forts have been most faithful, unflin-
g and abundantly successful, asked for
the same support that had loyally been
given to her predecessors, urging the
members to remember that the coun-
try for which the soldiers fought had
still great need for earnest workers.

Miss Brock was named an honorary mem-
ber of the executive, and it was voted
that six rose bushes should be sent her
for her garden as a token of apprecia-
tion of her work for the Y. W. P. A. and
of the regret felt at her enforced re-
tirement.

Miss Fairweather occupied the
chair last night, and was accorded a
most hearty greeting as president.
Announcement was made of Dr. Rob-
ertson's forthcoming lecture, and mem-
bers were asked to wear badges when
attending it. The sum of \$10 was voted
to the Rockwood Comforts Club to-
wards a memorial to the soldiers who
died for six soldiers; and \$5 was voted
to Miss Allingham to be used to buy gifts
for sailors in hospital.

The election of officers, made neces-
sary by the appointment of Miss Fair-
weather, the former first vice-president,
as president, resulted as follows: First
vice, Miss C. Dodge; second vice, Miss
Sheldon; third vice, Miss W. Upham;
member of the executive, Miss Mellick.
