

MEDICAL REPORT.

In presenting the Forty-eighth Annual Medical Report, we are very pleased to say that the health of the Home for the past year has been excellent. Notwithstanding the prevalence of diphtheria and scarlet fever in the west end, we have escaped without a single case, owing, no doubt, to the careful untiring efforts of Miss Deacon, the Matron, and attendants, and the efficient manner in which the Home is conducted by the Lady Managers; making the performance of our duties both agreeable and pleasant at all times.

J. H. McCONNELL, M.D.
Attending Physician.

JOHN HUNTER.
