de Chaleurs Railway scandal is the threat of Mr. Tarte in his paper, La Canadien, that if the Senate persists in its determination to investigate that great steal the break up of the whole system of Confederation may be the outcome. According to Mr. Tarte the Senate is engaged in inquiring into a matter with which it has no concern, the only body competent to deal with the subject being the legislature of Quebec. That such a threat should be made shows the desperate position in which the Quebec conspirators are placed. It is a new development of the doctrine of provincial rights in Canada that parliament cannot expose the booding of the Quebec ministers and their agents without being met with a threat of secession. There cannot be a doubt that Mercier is involved in the scandal and that Pacaud, as the Montreal Williams of the government for the purpose of the Mercier government for the purpose of the Mercier government tiself. Even the Cronto Globe has to admit that Mr. Mercier's reputation is in peril and it disposes of the argument of Mr. Tarte in advance by the statement that the federal government having paid \$55.5000 in cash to the Baie de Chaleurs railway, the federal taxpayer is entitled to know whether there is any truth in the statement in which ireland was governed, by fraud.
