THE MARKETS.

Revised Every Monday for the

ST. JOHN MARKETS. In the country market lamb is easier, pork a little firmer. Butter has also showed an increased firmness. Potatoes and turnips are cheaper. Eggs are steady. A few cranberries are in market, also some new apples. Corn is more pleutiful. The market is generally well supplied.

In fish, the easy tendency of dry fish continues, but new Bay of Fundy and Grand Manan herring show a sharp advance over previous quotations. Some halltut is now to be had.

nound.

There is no sale for spruce deals, and any arriving, unless to fill previous orders, are a drug on the market. Shippers decline to bid. During the last week rearly a dozen million feet cleared for ports on the other side, hut only a few vessels are now loading. Quotations are purely nominal. It is said there is a little better demand for the U. S. market, but shipments continue small, with a rumber of the mills idle.

Coastwise freights are, if anything, lower than before, \$2 being now the rate to New York. Ocean freights are steady.
