Why Stanfield's Use Nova Scotia Wool

HE hief reason is because the Stanfields ave never found any other wool that Underwear so peculiarly suited to

The salty, ocean breezes and healthful climate, coupled with the rich grazing, give Nova Scotia wool a quality which is not found anywhere else.

Nova Scotia wool is perfectly blended. It is soft and smooth, yet staunch and strong. It can be spun like silk and wears almost like steel. Garments, knitted of this fine wool, give the desired warmth and ar not heavy or bulky.

It is no exaggeration to say that the Stanfields get the pick of the Nova Scotia wool. The funder of these mills did much to develop the sheep-raising industr chroughout the Maritime Provinces. The farmers saved their best wool for him, and continue to send their high grade wool to the canfield mills.

Then, too, this wool reaches the mills the best possible condition. There are no long railroad hauls no lengthy journeys in the holds of tramp steamers. The wool is nipped direct to Truro as soon as sheared. Experts sort, clean and make it ready at once for its trip of transformation into Stanfield's Unshrinkable Underwear.

Stanfield's Underwear is made by the only rocess which takes the shrink out of the wool before the garments are knitted.

The value of this discovery—made by the founder of the Stanfield Mills—is shown by the growth of this busines, which is now capitalized at \$750,000.00 and employs over 200 operatives.

employs over 300 operatives.

Stanfield's Unshrinkable Underweat in made in 3 standard weights,
Light (Red Label), Medium (Blue La et and Heavy (Black Label)
and in 17 other weights and qualities suit the requirements of
every man and woman.

The best dealers everywhere handle Stanfield's Underwear.
