

CHARGES ARE PREFERRED IN THE LEGISLATURE

THE HON. WILLIAM CURRIE IS CHARGED WITH DEFRAUDING PROVINCE LUMBER CUT

(Continued from page 1)

1. That in the year 1908 I was appointed by the government of the Province of New Brunswick, a lumber scaler on all crown lands along the Bay of Fundy, from the River to and including the River Louisbourg, known as District No. 5, in the county of Restigouche, and acted as such from the year 1908 to the summer of 1917; and while scaling I was my duty to scale the lumber cut by the different operators along the said rivers and crown lands, and make a yearly report of each season's cut to the government of the Province of New Brunswick, on which report the stumpage accounts due the province from the different operators in respect of such lumber cut were rendered.

2. That all lumber cut on crown lands in the county of Restigouche during the logging season of 1916 and 1917 by the Continental Lumber Company, Limited, a duly incorporated company, with its head office and chief place of business at Charlottetown, the county of Restigouche, of which Honorable William Currie is manager, was cut along the Charlo River within the district over which I have been acting as such scaler, and all such lumber cut on crown lands during the season was scaled and counted by myself and my counters, and a report of such scaling and counting made by me on or about the first of April, 1917, to be forwarded to the government of the Province of New Brunswick.

3. That hereto annexed marked "A" is an exact copy of the said report of lumber scaled by me and counted by my counters and cut by the Continental Lumber Company, Limited, during the logging season of 1916 and 1917, which said report contains a complete statement of all lumber, namely spruce and pine, fir and cedar, cut on crown lands by the Continental Lumber Company, Limited, during the logging season of 1916 and 1917.

4. That upon the completion of the said report during the month of April, 1917, in compliance with the provisions of the Act in that behalf, I went to the office of the Continental Lumber Company, Limited, at Charlottetown, in the county of Restigouche, and saw William Currie, whom I knew to be manager of the said company.

5. That I knew the said William Currie was at that time manager of the said company, and a member of the legislative assembly for the county of Restigouche.

6. That the said William Currie then took me aside into a small private room adjoining the office and talked with me privately regarding the lumber cut on crown lands by the Continental Lumber Company, Limited, during the logging season then just past.

7. That this conversation took place after all the operators of the Continental Lumber Company, Limited, had finished their winter's cut of lumber, and at a time when the large operators, such as the Continental Lumber Company, Limited, have received reports from their own scalars of all lumber cut by the different camp foremen in their employ during the logging season then just past, and from information received by me at that time I believed that the said William Currie had then settled with the various camp foremen in the employ of the Continental Lumber Company, Limited, during the logging season of 1916 and 1917, and knew how much each operator had actually cut on crown lands for the said company during the said season.

8. Mr. Currie as such manager then there stated to me that I should not make my report on lumber cut by the Continental Lumber Company, Limited, for the logging season of 1916 and 1917, too high, but that I should keep it as low as possible, and in reply to my inquiry as to how much I should make it, I stated that I should not make it more than 4,500,000 feet for all lumber cut by the said company on crown lands during the winter season of 1916 and 1917, and urgently requested me to keep my report down to 4,500,000 feet.

9. I then asked the said Mr. Currie if he would use me right if I would make a reduction in the amount of the statement which I had prepared to the government, and he (Mr. Currie) then replied to me in words as follows, or to the like effect: "We won't use the axe, and by next election you fellows will be voting for us."

10. I then asked the said Mr. Currie if he would use me right if I would make a reduction in the amount of the statement which I had prepared to the government, and he (Mr. Currie) then replied to me in words as follows, or to the like effect: "We won't use the axe, and by next election you fellows will be voting for us."

11. I then told him that I would reduce my report on the said lumber cut to 4,500,000 feet and would make out a statement of the same covering the lumber cut on Crown Lands by the Continental Lumber Company, Limited, for the logging season of 1916 and 1917, reducing the different amounts set opposite the different contractors' names to a new statement purporting to be a complete statement of lumber scaled by me in the season 1916 and 1917 cut by the Continental Lumber Company, Limited, on Crown Lands within the district for which I was scaler, a copy of which is hereto attached, marked "B," and then forwarded the same to the government of New Brunswick.

12. I then went home and made out a new statement of lumber scaled by me in the season 1916 and 1917 cut by the Continental Lumber Company, Limited, on Crown Lands within the district for which I was scaler, a copy of which is hereto attached, marked "B," and then forwarded the same to the government of New Brunswick.

13. That I not only reduced the amounts showing the number of places and contents cut by the different contractors for the Continental Lumber Company, Limited, in my second statement to the government of New Brunswick, but kept out of the said statement altogether the names of six operators of the Continental Lumber Company, Limited, and their operations so that Mr. Currie, himself, might readily see from the said statement that all his operations were not in it and that he would know that he was not paying stumpage on all lumber cut by his company on Crown Lands during the season of 1916 and 1917.

14. That I believe the said William Currie paid the stumpage bill of the Continental Lumber Company, Limited, to the government of New Brunswick based on this last mentioned statement.

15. That the reduction made by me in the said statement was made by me at the request of the said William Currie, and upon representations made to me by him, he stated at the time being at the time such request and representations were made a member of the Legislative Assembly of the Province of New Brunswick.

Sworn to at the Parish of MURCHIE, County of Restigouche, this 22nd day of March A. D. 1918, before me, (Sgd.) D. McALISTER, Notary Public, New Brunswick.

We do not intend to do like the old government, namely, fire men that had done all right and put worse men in their places."

10. I then asked the said Mr. Currie if he would use me right if I would make a reduction in the amount of the statement which I had prepared to the government, and he (Mr. Currie) then replied to me in words as follows, or to the like effect: "We won't use the axe, and by next election you fellows will be voting for us."

11. I then told him that I would reduce my report on the said lumber cut to 4,500,000 feet and would make out a statement of the same covering the lumber cut on Crown Lands by the Continental Lumber Company, Limited, for the logging season of 1916 and 1917, reducing the different amounts set opposite the different contractors' names to a new statement purporting to be a complete statement of lumber scaled by me in the season 1916 and 1917 cut by the Continental Lumber Company, Limited, on Crown Lands within the district for which I was scaler, a copy of which is hereto attached, marked "B," and then forwarded the same to the government of New Brunswick.

12. I then went home and made out a new statement of lumber scaled by me in the season 1916 and 1917 cut by the Continental Lumber Company, Limited, on Crown Lands within the district for which I was scaler, a copy of which is hereto attached, marked "B," and then forwarded the same to the government of New Brunswick.

13. That I not only reduced the amounts showing the number of places and contents cut by the different contractors for the Continental Lumber Company, Limited, in my second statement to the government of New Brunswick, but kept out of the said statement altogether the names of six operators of the Continental Lumber Company, Limited, and their operations so that Mr. Currie, himself, might readily see from the said statement that all his operations were not in it and that he would know that he was not paying stumpage on all lumber cut by his company on Crown Lands during the season of 1916 and 1917.

14. That I believe the said William Currie paid the stumpage bill of the Continental Lumber Company, Limited, to the government of New Brunswick based on this last mentioned statement.

15. That the reduction made by me in the said statement was made by me at the request of the said William Currie, and upon representations made to me by him, he stated at the time being at the time such request and representations were made a member of the Legislative Assembly of the Province of New Brunswick.

Sworn to at the Parish of MURCHIE, County of Restigouche, this 22nd day of March A. D. 1918, before me, (Sgd.) D. McALISTER, Notary Public, New Brunswick.

Hon. Mr. Baxter.

In giving his notice of motion, Mr. Baxter said information of a serious nature had been in his hands for some time and he felt it necessary to lay the facts before the House and leave it in the hands of the House to decide what should be done. On the strength of an affidavit which he held in his hands he deemed it his duty to make certain charges and he called upon the members of the House to investigate the charges. He did not feel it would be proper for him under the circumstances to make any comment on the matter. He then read the affidavit and followed it by reading the formal charge.

Mr. Foster said he had had the information contained in the affidavit for some time. He assured Mr. Baxter that the committee would be granted as he felt that any charges affecting the honor of a member of this House should be investigated at once. He had asked Mr. Currie for an explanation of the charges and had received it in the form of an affidavit which he said he thought he had the right to read to the House.

He then read an affidavit of Mr. Currie which had been sworn to before Peter J. Hughes of April 13th and which was a general denial of Mr. Currie's statements.

Another Affidavit.

Mr. Foster then wanted to read an affidavit from Daniel E. Richards, president of the Continental Lumber Company, but Mr. Baxter stated that all it was proper to do under the circumstances was to make the statement of the party charged.

Mr. Foster insisted that the matter had caused him considerable concern and he thought as premier he had the right to read the affidavit. He then started to read it when Mr. Baxter interrupted.

Mr. Baxter—"My honorable friend must understand that I have not consented to the reading of this affidavit from an outsider. If he persists in reading it I cannot prevent it but it is without my consent."

Mr. Foster's reply was not distinct, but to the press desks it sounded like "that's all right."

He then continued to read Mr. Richards' affidavit which was to the effect that he (Richards) had adjured the stumpage of the Continental Lumber Company and that Mr. Currie had no knowledge of it. The House then adjourned.

Mr. Baxter's notice of motion will be heard on Thursday.

CALL FOR QUE. REVOLUTION!

Four Thousand Militia were in Readiness but the "Revolution" Fails to "Revolute."

Affects St. John Men.

It is based upon disclosures made in the Stevens investigation and in the investigation into the charges laid by Mr. Dugal and seeks to strike directly at the men who were most prominently connected with the proceedings of the Stevens enquiry and a gentleman who was the central figure in the Dugal investigation. The bill is specifically confined to matters in connection with the construction of the Valley Railway and the two investigations named. It is so framed that it does not include the notorious Central Railway steal, according to the report of investigating commissioners a sum in the vicinity of \$150,000 was involved.

Quebec, April 22.—The military authorities were on the alert here tonight owing to rumors current today that a revolutionary meeting would be held on Boulevard Langelier, the scene of conflict between the soldiers and the rioters on Easter Monday night.

Handbills and posters were freely circulated in St. Roch's and lower town today calling on the citizens to revolt and inviting them to a meeting at Boulevard Langelier tonight.

The four thousand troops stationed there in barracks tonight ready for any emergency.

A good detachment of police were on hand early and kept the people stepping lively in the vicinity of Boulevard Langelier.

The posters and handbills which were circulated earlier in the day were written in lead pencil and although the feeling here is rather keen over the new military service regulations, there seemed to be little enthusiasm over the call for a revolution.

Everybody is troubled at this season with loss of vitality, failure of appetite, that tired feeling, or with bilious turns, dull headaches, indigestion and other stomach troubles, or with pimples and other eruptions on the face and body. The reason is that the blood is impure and impoverished.

Hood's Sarsaparilla relieves all these ailments. It is the old reliable medicine that has stood the test of forty years—that makes pure, rich, red blood—that strengthens every organ and builds up the whole system. It is the all-year-round blood-purifier and health-giver. It embodies the careful training, experience, and skill of Mr. Hood, a pharmacist, for fifty years, in its quality and power to cure.

CONNOR BROS. BLACK'S HARBOR

Louis Connors, Member of Prosperous Firm, Will Locate in the City.

Louis Connors of Connors Bros., Black's Harbor, has taken up a residence in the city. He is looking after this end of the business, whilst his brother, Patrick, is yet in Black's Harbor. These men are in the sardine business and have been prosperous. Mr. Connors has also taken some interest in real estate, and has taken over some wells there. These men are old settlers and have done much to advance the interests of their locality. One of the brothers was a former councillor for years and gave satisfaction.

NFLD. CONSCRIPTION

St. John's, Nfld., April 22.—The legislative assembly tomorrow. It is understood Gov. Harris will announce a conscription measure embracing all unmarried men from nineteen to thirty-nine for active service.

asked him to reduce it. Mr. Murchie alleges it was the second statement that he sent in to the crown land office. The difference between the two statements is something in the vicinity of 2,100,000 feet and the allegation is that the stumpage on this difference is the sum of which Mr. Currie is said to have defrauded the province.

Don't Diet Yourself TO CURE DYSPEPSIA IT ISN'T NECESSARY

The sufferer from dyspepsia and indigestion who has to pick and choose his food, is the most miserable of all mankind.

Even the little he does eat causes such torture, and is digested so imperfectly that it does him little good. What dyspepsia needs is not dieting, or artificial digestants, but something that will put their stomach right so they will manufacture their own digestive ferments.

For four years now Burdock Blood Bitters has been making weak stomachs strong, and curing severe cases of dyspepsia and indigestion that other remedies were powerless to reach.

It restores the stomach to a normal healthy condition so that the food no longer causes distress, but is thoroughly digested and assimilated, and goes on its way making rich, red blood.

Mr. Henry Shaw, Campbellton, N. B., writes: "I was for five years troubled with a weak stomach, and could not eat any food that would agree with me. I tried different medicines, but could not get cured. A friend advised me to take Burdock Blood Bitters. I took four bottles, and now I am in perfect health."

B. B. B. is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
