WESTMORLAND TOPICS FIND A VICTORY AT LAST

Striking Comparison of Population: No stronger argument in favor of the people voting for reciprocity as this election can be produced than is given in the population statistics of the maritime provinces during the period it was in force, as compared with the high protection period of the old Tory government.

Table for Nova Scotia: Reciprocity Period—1854 to 1866. Population 1851: 100,800; 1861: 292,047; Increase ten years: 285,594; Increase ten years: 285,594; Increase in twenty years: 571,188.

THE UNKISSED BRIDE LOSES HER SUIT

New York Court Upholds Banker Gambler in Leaving Her No Separation; and if She Wants Alimony She Will Have to Move Again—Leaving a Wife for Her Own Wrongdoing is Not Defensible in the Law's Eye.

New York, Aug. 8.—Mrs. Edith Russell Gambler, the unkissed bride, has lost her suit for separation from her husband, Edward Victor Gambler, cashier of the Merchants Exchange National Bank. Supreme Court Justice Pendleton handed down a decision yesterday in favor of the defendant husband, deciding that his abandonment of his wife, which she charged in her complaint, was justified.

Justice Pendleton says that the couple were married on April 30, 1910, in New York and that they remained together only until August 15, 1910, when, according to Mrs. Gambler, he left his wife, intending never to live with her again.

The defendant told the plaintiff, desired her as a wife, married her with every intention and purpose of living with her and after the marriage treated her with great consideration, kindness and attention the evidence abundantly shows. It is possible that she deserted her with less consideration and had been more selfish if it would have been for her and for both of them.

Justice Pendleton refers to the evidence brought in Harry Benjamin, oil merchant of 1 West Sixty-sixth street, and says: "Even on her admissions her conduct was scarcely in accord with the duty of a wife."

GREAT HARBOR WORKS AT PORT OF ST. JOHN

Post Office Fine Building. "In regard to a site for the new post office," said Hon. Mr. Pugsley when asked about this, "my desire is to secure a suitable site for a new post office, which will be such as should exist in a city of much greater population than that of St. John at the present time."

Senator Domville was accorded a very hearty reception on his visit to St. John yesterday. He held a conference with the members of the executive committee of the St. John and Quebec Railway Company and his solicitor were present, draft contracts were agreed to which were entirely satisfactory to the company and under which the president stated, they would be prepared to proceed with the work.

LIBERALS HOLD ROUSING RALLY AT CHIPMAN

Col. H. H. McLean, Hon. C. W. Robinson and A. B. Copp, M.P.P., Warmly Greeted—Overwhelming Sentiment in Favor of Reciprocity.

London, Aug. 9.—At a meeting of strikers at River Hill this afternoon, Benjamin Elliott, secretary of the Dock, Wharf, Riverside and General Workers Union to Great Britain, announced that orders had been issued calling out every man of the port of London.

Tonight the Combined Millers Association of London telegraphed the home secretary asking for military protection against the striking dock hands.

Official quotations on foodstuffs were practically suspended on the produce exchange during the day. There have been several encounters between the police and the strikers and men have been drafted from outside districts to assist in maintaining order.

Struck Without Warning. London, Aug. 9.—London is faced by the possibility of no food of famine, at least of such a serious shortage in food supplies as to endanger the health of the population.

As a result of the strike, the dockers have not returned to work because kindred trades, such as stevedores, lightermen and carmen, encouraged by the excess of the dockers' demand, decided to strike with the dockers and the dockers resolved to remain out until the other trades won a victory similar to their own.

Appeals being made to the strikers to consider whether, in view of the fact that the other quarters engagements, which are being made, will be a sharp confrontation with a serious shortage of food. When these reserve supplies do begin to give out the effect will make itself felt at once, and strongly, in a rapid rise in prices.
