The aim of this Association is not only to bind together in kindly feeling and mutual interest all who have studied at Acadia, but also to render more certain the untiring devotion of all Alumni to the interests of the University. All graduates, former students and persons interested in the University are cordially invited to become members and to aid in promoting the objects of the Association. The membership fee is one dollar per annum.

The deep interest which the members of the Association feel in the welfare of the University has of late assumed practical form in undertaking the support and endowment of a Chair in the University. This Chair, known as the "Alumni Chair of Physics," is filled by Professor F. R. Haley.

To further the purposes of the Association, a branch Society has been formed in New England with its headquarters at Boston, Mass.

The rapidly increasing number of graduates from Acadia ought to be an ever enlarging source of support and strength to the University. It is growing more and more evident that the future wellbeing of Acadia must largely depend upon the efforts and generosity of her sons. Her ability to meet the growing demands of the times must be very nearly commensurate with the willingness of her sons to place at her disposal the means needed to insure such necessary advancement.
