The approaching season promises new public works, which will materially enhance the prosperity of various portions of the country, and furnish remunerative labor to a large class of our people who have found the winter just osing one of more than ordinary dullness and inactivity.

Besides the general preparations for the Pacific Railway, and the construction of a subsidiary link of that road from Thunder Bay to Fort Garry, we have in Ontario the new Victoria railway, the survey of which has just commenced. and which is destined ultimately to connect Toronto with the Upper Ottawa; The appointment is a good one. It passing in its route through the County will necessitate, however, a new election of Victoria and the rear of the County of Peterboro; thus opening up and preparing an outlet to the Capital of Ontario for vast resources in timber and minerals of a large extent of new and undeveloped back country. The Kings ton and Pembroke railway will no doubt be vigorously pushed along the line already marked out; while further ex tensions or improvements on existing lines will furnish a quota to the sun total of railway construction in Ontario and these together may be expected to furnish occupation to many hundred

A portion of the people of Quebec have long cherished the project of Norh Shore Railway from Quebec city to Montreal; and the news recently received from London that the capital required for the construction of this road had just been subscribed in British money market, will ensure the realization of these hopes; while Northern Colonization Road of the san Province, it is to be hoped, will soon be in a position of equally rapid advance-

As a people, we have reason to be proud of these works of internal im- viz : provement; which even in their building, cannot fail greatly to enhance the progress and prosperity of these Provinces and even of the whole Dominion. Other new lines or extensions will no doubt claim attention at an early day. We merely refer now to those which pro mise immediate occupation and active progress during the present season. Here tofore too many of our young men have been drawn to the United States to seek occupation. At present the prospect nearer home are so encouraging, that we

PROHIBITORY LEAGUE.

We announced in our last issue that Mass Meeting under the auspices of the "Ontario Temperance and Prohibi tory League" was to be held on Saturday evening in the Town Hall; and that some Senators, members of Parliament and other distinguished visitors from the Capital were expected to take part in the meeting.

And now in speaking of the meeting. we regret that, for some reason as vet unexplained, the deputation with the exception of Mr. H. S. Watson the general agent of the League failed to attend. This we regret not only because the audience was disappointed, but also be cause the friends of Temperance here had taken considerable trouble in preparing a fitting reception, for some of our citizens together with our excellent Band were at the Junction for the express purpose of giving them a friendly welcome and escorting them to the Hall.

However, notwithstanding this an propitious event, the meeting was a large and highly respectable one : and Mr. Watson presented the principles and objects of the League in an eloquent manner, evidently carrying with him the sympathy and judgment of his hearers.

Nearly all the local clergy and Rev. Mr. Brock of Perth were at the meeting. Our worthy and respected townsman, Mr. Bell occupied the chair with his usual ability. When Mr. Watson ience, those desirous of forming a

The Band Concert advertised in our last issue took place on Friday evening tended as we had hoped for, but this vas owing to there having been so many similar entertainments during the past good and well carried out with the expeption of a dialogue by two little boys, who resorted to personalities which should not have been allowed. We hope the Band will be more careful at future concerts, and not permit anything which will cause ill feeling: We believe or the whole the concert was a success.

Mr. E. V. Bodwell has been appoint ed Superintendent of the Welland Canal for the Sout's Riding of Oxford, as Mr. Bodwell, by virtue of acceptance of this office, will have to retire from his present seat in the House of Commons.

The friends of the Quebec North Shore Railway state that the news from England, with regard to the raising of he necessary loan, is encouraging. Contracts for large amounts of construction material are reported to have been given

THE TARIFF RESOLUTIONS.

The following are the tariff resolutions, from which it is expected that an additional revenue of three millions of dollars 1st. That it is expedient to am

he Act 31 Vie., Cap. 44 and other acts mending the same, and the tariff of luties and customs contained in chedule appexed to the said Acts. 2nd. That it is expedient to repeal so much of the said schedule as imposes so much of the said schedule as imposes any specific duty of customs on eigars or spirits and strong water, and to substitute for such duties the specific duties mentioned in the next following resolution.

3rd. That it is expedient to impose on the several articles hereinafter mentioned the specific way. tioned, the specific ad valorem duties of customs set opposite to each, respectively,

Tea, Green or Japan, per lb. 6 cents Tea, Black, per lb...... 4 cents Coffee, Green, per lb...... Coffee, ground or roasted, per

Sugar, in addition to the ad luty of 25 per cent. now imposed on all 13 and below No. 16 Dutch Standard

on other Sugars as before.
Spirits and Strong Waters, viz: Spirits and strong waters not having been sweetened or mixed with any article, so that country into a great and prosperous country into a great and prosp roof, and for every greater or less quanity than a gallon, namely; brandy, Beneva, alcohol, rum, gin, whiskey, and menumerated articles of the like kind,

> Other spirits, being sweetened or mixe so that the degree of strength cannot be ascertained as aforesaid, namely: rum, shrub, cordials, old tom, gin, taffa, scheidam, schnaps, bitters and unenumerated articles of the like kind, per gailon

pins and connecting rods and machinery for milts and factories which is not manufactured in the Dominion.

5th. That it is expedient further to amend the said Schedule B, by adding the following articles to the list of goods the following articles to the list of goods paying 5 per centum ad valorem, viz Ships' Materials, viz: Binnacie lamps, blocks and patent bushes for blocks, bunting, cables, iron chain of all sorts, compasses, dead eyes, dead lights, deck plugs, knees, iron masts, or parts of iron plugs, and with the compasses.

any other duty or declared to be freshall be charged with a duty of custor of sixteen and two-thirds 163 per century

amend the said Schedule C. annexed the said Act by striking out the said schedule under the heading "Manufactures, which shall be added to the list of good paying ten per centum ad valorem, the words following "Cotton netting for India Rubber shoes and gloves; cotton warp, not coarser than No. 40, cotton thread in hanks, colored and unfinished, Nos. 3, 4 and 6 ply, white, not under No. 20, warp, class paper and class sloth, wollen yarn, glass paper and glass cloth, woollenetting for Indian Rubbers and gloves netting for Indian Rubbers and gloves, linen machine thread, plush for hatters' use, and for gloves, prunella, machine silk twist, felt, used for gloves, felt for hats and boots, and the several articles herein before-mentioned as charged with duties," and by adding to the said schedule the words "wool waste," and under the head of natural products "flax seed." and by adding the word "unmanual.

under the head of natural products "flax seed," and by adding the word "unmanufactured" after the word "wools," and before the words "used chiefly in dyeing" under the head of drug stuffs.

9th. That it is expedient further to amend the said Schedule B, by imposing an ad valorem duty of seven and one half

an ad valorem duty of seven and one half per centum on the following articles:—
Iron, viz bar, hoop rod, and sheet, nail, and spike rod, round, square, and flat, Canada plates and tunnel plates, rolled plate and boiler plate.

That it is expedient to amend the Act respecting Inland Revenue, 31 Vic., Cap. 8, by repealing the sub-section 31, and substituting the following in its place, as sub-section 2 of the said section 31:—
"On every wine grallen of spirits of the "On every wine gallon of spirits of the strength of proof by Sykes' hydrometer, and so in proportion for any greater or less strength than the strength of proof, and for any less quantity than a gallon,

seventy-five cents.

10th. That it is expedient to amend the Act respecting the Inland Revenue, 31 Vict., Cap. 8, by repealing sub-sections six seven, and eight of Section 31, imposing duties on manufactured tobacco, and substituting the following in their place as sub-sections six seven, and eight place as sub-sections six, seven, and eight of the said Section 31:—

6. On Cavendish tobacco and

pound, 20 cents.
7. On common Canada twist, otherwise called Tabac blanc Torquetta, being the impressed leaf rolled and twisted and made wholly from tobacco the growth of
