ABOUT NEW SUBSCRIPTIONS.

ABOUT NEW SUBSCRIPTIONS.

QUESTION—Is it necessary to send in from one to four new subscriptions in order to win a prize?

ANEWER—No. A person who gives in only his own subscription—new or remewal—may win any prize on the list. However, the winners of the first five prizes will receive \$25 for each new subscribers secured by them, the limit pering four for each prize. Also a bonus at 20 per cent will be paid to those who stand \$1 to 100 on prize list.

QUESTION—May the new subscribers are delivered to his home or postoffice, either by carrier or mail.

QUESTION—what amount must new subscribers, secured by contestant, pay?

ANSWER—All subscribers must pay at least \$2.75 and not more than \$10.

The amount paid has no bearing on the value of the subscriptions to shose the subscriber is one of the subscribers are going to submit solutions for themselves, the amount of their prizes may depend to a great extent on the amount paid. This refers to first five prizes only.

In its summary of the iron, steel, metal and machinery markets for the week, Canadian Machinery and Manufacturing News, Toronto, makes the facturing News, Toronto, makes the following comment:

While it is not possible to say that an era of lower prices has definitely set in on the fron, steel and machinet tool market, it cannot be denied that the movement is in that direction. Especially is this so in machines turned out by the newer makers as some of the old-established companies are still working on orders and are in no mood to consider reductions. Many of the makers have planned their course very carefully and have avoided making up a large stock to urge lower prices on their sales force. Reductions during the week have been made in motors, sear cutting machines, internal grinding machines, etc., and these range from ten to twenty per cent.

Therefore, Toronto, makes the following Named Under Provisions of Bulk Sales Act.

OTTAWA, Feb. 16. - (By Canadian Press.)-Influenza was more costly to life insurance companies operating in Canada during the year ending March, 1920, than were post-war casualties. This information was given in the annual report of the superintendent of insurance, tabled in the House of Commons today by Sir Henry Drayton.

Net death claims during the year totalled \$16,927,345, of which \$785,331, or 4.66 per cent, were due to the war, and \$2,995,228, or 17.69 per cent, due to influence.

# COST PLAYERS \$55 Police Walked In On Little

The South End's Monte Carlo was in session Sunday morning, with John Anderson, a prominent figure in the "roil," but at the request of police constables the session was adjourned until this morning, when Magistrate A. H. M. Graydon presided at the police court. Wilbert Moran was assessed \$10 and costs for allowing the boys to use his carpet as the athletic grounds. The athletes paid the court \$5 and costs for that privilege.

When the Sabbath arrived, the dust was flying in Moran's poolroom at \$8 Maitland street. Interest centred around two little blocks of ivory. Ten men were taking turns trying to get a "natural" (seven or eleven), or the alternative of the point, which they made on the first shot. These African golf champions were real artists, some 'of them having shot in bigger leagues.

Cops Were Watching.

On the count of the public and separate schools and collegiate institute. Those of the little one who fail to obey the order of the board will be excluded from the schools until the epidemic period has passed.

The principals will be directed to have the order of the board enforced, and that the children produce certificates of vaccination before being allowed to attend school.

on the first shot. These African golf champlons were real artists, some of them having shot in bigger leagues.

Cops Were Watching.

On the outside of the "joint" were three policemen. As they had not paid an entry fee, they could only watch the proceedings through a crack in the blind on the window. However, they were not to be debarred, and when one of the participants came to the door to substitute fresh air for the dust in his lungs, the officers brushed past him and walked into the room. Immediately the game stopped. Whether it was because the golfers thought the officers were too good for them, or whether they refused to play because the gate receipts were nil, was not stated.

Anyhow, the session was adjourned until this morning. At first Robert Johnston was charged with allowing gambiling in his place. He cleared himself by saying that he had sold the business to Moran, but he admitted being in the game.

All Were Fined.

"How many times have you been up for this before?" asked the magistrate of John Anderson.

"Just once or twice, your worship.
There wasn't enough in that game to feed a man a day.

"This must be stopped," declared the magistrate.

"We'll quit," said John, smilling.
Myers Gootson was fined \$10 and costs for allowing candy, which was purchased from his store, to be carried away on Sunday. He said that he had tried to stop the customer from leaving the store. The buyer said that such action was not taken until two officers hove in sight.

W. W. Tennett, Howard Featherstone and Fred Entwistle were fined \$2 and costs for violating the motor vehicles act.

A Committee Named.

The board named Dr. McKillop, M.
O, H., and Dr. Turner a committee to wait on the proportied to wait on the propriet or soft theatres and instruct them what possible measures might be adopted by them to prevent people with communicable diseases visiting from their theatres.

Chairman Taylor reported the percentage of children who had been vaccinated at the public schools: Wellington of 72; Scott Street, 70 out of 56; Hiawatha, 11 out of 71; Manitoba, 45 out of 172; Elmdack, and Fred Entwistle were fined \$2 and costs for violating the motor vehicles act.
