Cops Were Watching.

On the outside of the "joint" were three policemen. As they had not paid an entry fee, they could only watch the proceedings through a crack in the blind on the window. However, they were not to be debarred, and when one of the participants came to the door to substitute fresh air for the dust in his lungs, the officers brushed past him and walked into the room. Immediately the game stopped. Whether it was because the golfers thought the officers were too good for them, or whether they refused to play because the gate receipts were nil, was not stated.

Anyhow, the session was adjourned until this morning. At first Robert Johnston was charged with allowing gambling in his place. He cleared himself by saying that he had sold the business to Moran, but he admitted being in the game.
