Particulars from C. P. R. Agents, or write M. G. Murphy, D.P.A., Toronto.

R. CLANAHAN, Agent, Glencoe

The subject of the lantern address in St. John's church will be the Reformation and the lessons to be gathered therefrom for the present time. Each Wednesday evening at 8 o'clock. Subject this evening, "Those things which lead up to the great reform movements."

There was a large turnout at the annual meeting of the policy-holders of the Ekfrid Mutual Fire Insurance Company held at the home of Mrs. Curtis Gough was re-elected a director and John T. McLean was elected director in room of the other retiring member of the board.

Discussing the farm labor problem, Dr. James told those who had advocated taking the unemployed to the farms some truths. "You would not bring in farmers to be bricklayers or carpenters; then why take these men to do farm work, which is just as complicated as city work."

Mrs. R. Clannahan gave a very enjoyable parlour tea at the home of Mrs. Wilson on Friday afternoon. Mrs. Sutherland, Mrs. Huston and Mrs. McCracken received with her, while Misses Copeland, Thomson and Saxton assisted in the service. The contents and decorations were of a patriotic character.

A social afternoon from two to five will be held in the Presbyterian church on Thursday of this week at which work in connection with missionary sewing will be considered. All the ladies of the congregation are invited to attend and are expected to bring money or material for a box to be shipped to the West.

Miss Hattie L. McAlpine, secretary-treasurer of the Neele Club at Ferguson's Crossing, is in receipt of a letter from the honorary treasurer of the Belgian Relief Fund at Montreal acknowledging receipt of box of clothing forwarded by her. In the deepest gratitude to all the generous contributors to the gift.

The latest fad is the handbag for men, according to the fashion journals. The handbag for men is a good thing. There are a lot of feminine men in this country who should be carrying them. In these cases the man's handbag should contain:—One powder puff; one piece chambray skin; one hand mirror; one bottle smelling salts; one box face powder; one set of safety razor; one extra set of corset strings; engraved calling cards.

The annual meeting of the Glencoe Canning Co. was held on Tuesday afternoon. Growers reported varied success with tomatoes. Last season, netting profits ranging all the way from \$25 to \$100 per acre. The output of the factory was considerably more last year than the year before, but the net profit was not so large as in previous years. Conditions this year are more favorable and the outlook very encouraging generally.

The Wardville High School gives its annual entertainment at the Wardville Town Hall on the evening of Friday, Feb. 28th. Part of the programme consists of selections by Mr. Cyril Hayes, dramatic reader, a pupil of Professor Duxbury, of Manchester, England. There will also be choruses and a drill by the pupils, the presentation of diplomas, and "A case of Suspended," a one-act comedieta of ten characters, by the senior students. Admission, 25c; reserved seats, 35c. Plan at J. A. Mulligan's. Doors open at 7:30; programme at 8 o'clock.

Officials of the Inland Revenue Department are busy making preparations for the administration of the new stamp tax. The special stamp has been selected and orders for engraving placed. The stamps will be ready for sale as soon as the new taxes go into effect, which will probably be March 15th. The new stamps will be used for checks, receipts, bills of lading, bills of exchange and railway tickets. The special stamp will be also placed on letters and post cards. However, the new stamps will be accepted beyond the regular issue will be accepted. Mail without the extra postage will be sent to the dead letter office. The "date" of the new taxes will be announced as early as possible, but it is feared that for some time, despite every effort, there will be a large number of letters find their way to the dead letter office.

PERSONAL MENTION

—Miss Fern Graham was in Detroit for the week-end.

—Lorae Mitchell, of Ridgetown, spent Sunday in Glencoe.

—Mrs. McLevey attended the opening in London on Monday.

—Gladys McLevey is convalescent after a severe attack of rheumatism.

—Miss Dubs, of Alvinston, spent the week-end with Mrs. Duncan McCallum.

—Miss Olive Sterling, of Thamesville, spent Sunday with her sister, Mrs. Jack McCracken, who is indisposed.

—Misses Edith Precious and Ada Reycaft, of London Normal School, spent the week-end at their homes in Glencoe.

—Mrs. R. P. McLevey is in Detroit this week attending the millinery openings.

—Thomas Vause, of Detroit, spent a day or two with his uncle, R. C. Vause, here, this week.

—Mrs. Martha J. Trestant has gone to Tai's corners to spend a few weeks with friends.

—Miss Burr has returned to her home at Parkhill, after spending a week with her brother here.

—Mrs. Keith and Miss Florence Mitchell attended the spring millinery openings in London this week.

—T. P. Loblaw, P. J. McCallum and John Medland, of Toronto, attended the annual meeting of the Glencoe Canning Co. here on Tuesday.

—Mr. and Mrs. Alex. McNeil were in Alvinston Monday, attending the funeral of Mrs. McNeil's brother, Colin Walker. This is the second brother of Mrs. McNeil to die this year.

Do not delay in getting relief for the little folks. Mother Graves' Worm Exterminator, Feb. 17th, of Fred Watson, of Dresden, and Miss Edith, second daughter of Mrs. Annie Evans, formerly of Glencoe.

WOMAN'S BEST MEDICINE

Mrs. Kelly Advises all Women to Take "Fruit-a-Tives"

HAGERSVILLE, ONT., Aug. 26th, 1913. "I can highly recommend 'Fruit-a-Tives' because they did me an awful lot of good and I cannot speak too highly about them. About four years ago, I commenced taking 'Fruit-a-Tives' for a general break-down and they did me a world of good. We bought a good many dollar's worth, but it was money well spent because they did all that you claim for them. Their action is so pleasant, compared with other laxatives, that I found only pleasure, as well as health, in taking them. They seemed to me to be particularly suited to women, on account of their mild and gentle action, and I trust that some other women may start taking 'Fruit-a-Tives' after reading my letter, and if they do, I am satisfied the results will be the same as in my own case."

Mrs. W. N. KELLY
"Fruit-a-Tives" are sold by all dealers at a box, 6 for \$2.50, trial size, 25c, or sent postpaid on receipt of price by Fruit-a-Tives Limited, Ottawa.

SPECIAL NOTICES

Old papers for sale at the Transcript office.

Best Manitoba flour for sale at McLachlan's Bakery.

British hero souvenir spoons at Wright's Hardware.

Nine young pigs for sale. Apply at south half lot 18, con. 4, Ekfrid.

You make no mistake when you go to Sessmith's for your shoes and rubbers.

For rent—residence over Anderson's tinware store. Apply to J. N. Currie.

For sale—two thoroughbred bronze gobblers. Apply M. A. McKellar, Glencoe.

Beautiful assortment of spring millinery just arrived at Mrs. W. A. Currie's Millinery Parlors.

Don't forget the date—Friday, 5th inst.—Newbury Patriotic Concert. Four act comedy, "Shiny at Vassar."

For sale, at a bargain—house and six lots in Appin. For particulars apply to Mrs. Etta Smith, Route 3, Iona Station.

Be sure and attend the play, "Shiny at Vassar," Newbury Town Hall, Friday, 5th inst. Proceeds for Patriotic Fund.

For sale—comfortable two-story frame house, 7 rooms, pleasantly situated. Enquire for particulars at the Transcript office.

Our new spring millinery is here. Early buyers cordially invited. We are ready for the spring trade.—Mrs. Currie's millinery parlors, Glencoe.

For sale—pure seed, free from weeds, of O. A. C. No. 72 oats and No. 21 barley, also Marrowfat beans and clover seed.—Wm. A. McCutcheon, Glencoe.

Don't miss the big combined sale, corner of Main and McKellar streets. High class merchandise to be sold at a lower price than the cost of the raw material. This is your opportunity.

All notices in this column are strictly cash. If orders are telephoned to the Transcript, kindly arrange to pay the amount the first time you are in town, so they will not have to be carried through the books.

Now is the time, while your car is not busy and while we are not busy, to have it put in shape for the coming season, thereby obtaining an economical and thorough job. H. F. McAlpine is the shop.

On the evening of March 1st, at 8 o'clock, the members of the W. C. T. U. are requested to be present at the home of Mrs. Hicks. It is to be The Mother's Meeting and we hope to see all the members present.—Pres. Cor.

When buying your spring shoes don't fail to call and see our stock. We have a large stock bought last fall before the raise in price and are therefore able to supply you with foot wear up-to-date at reasonable prices.—E. George.

To THOSE OF SEDENTARY OCCUPATION.—Men who follow sedentary occupations, which deprive them of fresh air exercise, are more prone to disorders of the liver and kidney than those who lead active, outdoor lives. The former will find in Parmelee's Vegetable Pills a restorative without question the most efficacious on the market. They are easily procurable, easily taken, act expeditiously, and they are surprisingly cheap considering their excellence.

All subscriptions are payable in advance. Address TRANSCRIPT OFFICE, Glencoe, Ont.

WHY DO TOPS SPIN?

Even Scientists Would Like To Know More About It.

Few boys ever stop to think why their tops spin. Neither do the grown-ups who pause to watch the top-spinning which is so universally popular every spring.

Yet engineers, astronomers, physicists and inventors would all like to know more than they do about spinning tops. A great many matters of the utmost importance to the human race depend on finding out all we can about this subject.

The exactness on which we live is a top. So are Mars, the North Star, the sun itself, and all the other celestial bodies. It is even suspected that atoms and electrons are spinning tops. The dirigible torpedo is a top, the monorail car is a top, the bullet sped by a gun is a top.

A new form of compass, called the "top" or gyroscopic compass gives direction without being affected by the iron of a hull or the rolling and pitching of the steamer.

All speed machinery has "top" action, which must be reckoned with. Rotary engines, turbines, Diesel engines and all machines which drive fly wheels and propellers have the spinning top behavior.

Submarines, aeroplanes and dirigible balloons would be more stable and less dangerous, if we could only solve the mystery of a spinning top's action.

The gyroscope is a toy top within a tin rim. It is made of a heavy rimmed metal fly wheel mounted in a frame. Friction is reduced to a minimum by the spindle rotating on ball bearings. Thus a great velocity is possible. Engineers and inventors learned from boys to spin this gyroscopic top. They are always hoping for a clear understanding of the spin.

The gyroscopic action of the paddle wheels of a steamer exerts a steady effect upon the vessel at the expense of her steering qualities. The effect of this is to cause the steamer to run away to starboard when acted upon by a cross sea. This makes her turn to starboard when the sea would be expected to send her the other way.

On the other hand, when a paddle steamer is steered to port she heels over to starboard because of the top-spinning action of her paddles. This causes the wheel on the starboard side to become more deeply immersed in the sea than the port one, and the steering is exaggerated.

The top-spinning action of the fly wheel of an automobile is interesting, too. The axis of an automobile fly wheel runs backward and forward and the flywheel crosswise. If you stand behind an auto you see the wheel revolving as do the hands of a clock. If a man or a woman in a car tries to turn the auto toward the left the flywheel tries to spin its way upward. In consequence a "couple" as it is called, act on the car and throws the weight of the machine on the back wheels.

When an automobile turns to the right the weight is thrown on the front wheels because of this top-spinning action of the flywheel. Many accidents to motor cars are due to interference with this top-spinning action when turning a corner sharply or at great speed.

Turning a motor boat, a ship's head and an aeroplane, as well as the rolling and pitching of great vessels all bring about unlooked-for catastrophes by virtue of this mysterious top-spinning.

Man and His Tailor.

A man can be measured to the best advantage, tailors say, away from a glass. Standing before a mirror he is almost certain to throw out his chest. If he does not habitually carry it so, and take an attitude that he would like to have rather than the one he commonly holds, whereas the tailor wants him, as the portrait painter wants his subject—in his natural pose and manner.

With the man in that attitude the tailor can bring his art to bear, if that is required, in the overcoming of any physical defect and produce clothes that will give the best attainable effect upon the figure as they will be actually worn.

Whispering.

What is the most arresting noise—the human shout, the fire bell, the toot or scream of the motorcar? Not a bit. A doctor will tell you that the human whisper is the weaker. A patient may sleep through all the noises but that, which some people think secret, in a railway train. And the first thing a nurse has to learn is not to whisper, for you can waken the soundest sleeper with that when a conscientious carpenter's hammer would leave him sound asleep.—London Standard.

No Fiction.

It was a clerk in a bookstore of whose spirit mattress demanded a book for her son. "No fiction, please," she explained, "but absolute, literal truth, without unnecessary verbiage or absurdly fanciful pictures."

"Well, madam"—the bookseller paused, his eye running over his shelves; then, with a flash of inspiration, he took down a volume. "I should think this might meet your requirements," he said, and he handed her a popular geometry.

An Easy Problem.

Prove that 9 taken from 6 and 10 taken from 9 and 10 taken from 10 when all added together is only 6. Easy when you know how. Take IX (9) from SIX and you have 3 left; take X (10) from IX (9) and you have 1 left; take L (50) from XL (40) and you have X left, and when you add 3 and 1 and X together you have SIX, haven't you?

Unappreciated Talent.

Tramp—Yes, mum, I was once quite a musician, an' I guess I ain't forgot it about it yet. Well, when Mrs. Housetop—indeed! Well, you can take the ax and chop a few cords out of that woodpile.

Farmers, ATTENTION!

Bring your steel barrels to us for refilling.

Best American Coal Oil at 14c per gal.

Our grade is the highest.
