

Case 10-18

IN this Case 10-18 are embodied all the newer and proven improvements — ideas which Case Engineers have been working on for years. Every feature appeals to the man who appreciates perfections.

The frame, for instance, is a rigid unit. Being integrally cast with the housing for the rear axle, counter-shaft, transmission and crank case, it forms the strongest possible base for the motor. It insures perfect alignment.

The entire transmission from crank shaft to rear axle is made up of cut steel, spur gears fully enclosed.

This gives an indication of dozens of superiorities. Study every item, and you will find in this tractor the advancements you approve. For performance, economy, durability and all the advantages you seek, this Case 10-18 is incomparable. It burns kerosene. It develops one-third more power than its rating.

Write for complete specifications. They will surprise you.
