# FORGIVENESS OF SINS ON EARTH.

Father H. Parker, S. J., Sermon by Liverpool.

At St. Francis Xavier's, Liverpool, on Sunday evening, Father Parker de-July 21. livered a sermon on the power of for-giving sins on earth. Taking his giving sins on earth. Taking his text from Matt. ix., 2, he said the power of absolving from sin belongs only to God. It is a power wholly divine - it is not human. To absolve from sin is an act of divine jurisdiction. For man to absolve from sin without having from God the divine authority and the divine commission is an act of downright blasphemy. Only consider what sin Sin is an offence against God ; it is an act of rebellion against His sovereign authority. It is an act of sovereign authority. It is an act of defiance against the will of God, as far as creatures can defy His will. Mortal sin strikes at the dignity and being of God Himself. It makes the creatures big down and the new; to the deep-seated feeling of dis-satisfaction everywhere so prevalent with the existing order of things; men's minds are disturbed by the agi-tations and conflicts relations and creature renounce his dependence on creature renounce his dependence on the God Who made him, and Who deeds of violence are of almost daily preserves every minute of the life he preserves every minute of the file he lives. Therefore it is clear that the power of absolving from sin rests with God alone, or if it be exercised by anyone else, it can be exercised only by him who has directly from God Himself the permission, the divine authority, or by one who fills for the time being God's office here. Mortal sin destroys the supernatural life of the soul — it takes away from the soul sanctifying grace, which is the super-natural life; and because it takes away this supernatural life of the soul, it takes away from it all the dignities and privileges that belong to that supernatural life. Mortal sin, therefore, takes away from the soul the dignity of being a friend of God-the dignity of being an adopted child of dignity of being an adopted child of God-the dignity of being able to claim by right the throne in God's Kingdom of Heaven, with His good angels and saints. Now, for a creature to pretend to be able to give back this supernatural life to the soul-for a creature to pretend to give back all these amazing privileges and dignities -would be an act of blasphemy than which none higher can be conceived. The pretention of a man who claims to be able to raise to life a corpse, to restore to full health and vigor the sick and the lame, without divine assistance, is far less than that of the man who assumes the power to absolve from sin, and who has not the divine author ity to do so. To forgive sins requires the power of God in a far higher degree than to work miracles. To for-
