THE MAIL AND ADVOCATE, ST. JOHN'S, NEWFOUNDLAND, NOVEMBER 28, 1914-2

nother, says:

## Stylish **Persian Paw Sets**

**LI**ERE are sets similar to the style shown in this illustration, but those priced here come without fringe.

These sets are made of a fur-like fabricmade, you know, to resemble that rich, black,

wavy fur, that is so highly prized by aristocrats, because of its exceptional rarity.

**These Muffs** & Throwovers come in black and are light in weight, warm and comfortable, and easily take the lead for dressy appearance, and are the latest fashion—s e t s like these are sought after by careful dress-

ers.

TO LOSE BOTHA South Africans Idolise Loyal General Who is Leading Their Forces Victoriously Sergeant G. H. Brown, of the 2nd Manchester Regiments, who was Against the Rebels wounded in the thigh, and was taken

> STEBAURMAN'S OINTMENT

> > TO THE PUBLIC. I want you to know what Mr. Ste

baurman's Ointment done for me after sixteen months' suffering with sore nose after three doctors trating me. The last one ordered me to Hosigh. Stacks of Germans were also pital to have my nose opened, but thanks to this Ointment I got clear of the surgeon's knife. I recommend i Anyone can repair a roof with Elastic Rooffing Cement Paint. It is easy for all sores. I cannot praise i and ready to apply. No heating reenough for what it has done for me. quired. You can do the work your-MRS. JAMES BAILEY.

self with an ordinary whitewash 24 Hutchings St. Stebaurman's Ointment, 20 cents per box or 6 boxes for \$1.00-oct23,2w Cash Must be Sent With Order.

First in 1893 Foremost in 1914 -:--:-Built in sizes from 5 B.H.P. up to 320 B.H.P.

Nearly 100 vessels fitted with Bolinder's Engines for towage in the British Isles, the object of Messrs. Bolinder's design being for large Propellors at low revolutions and consequent efficiency. As an example mention might be made of the "MIRI" (160 B.H.P.) which tows regularly at Sea a 1500 Ton Tank Barge.

The Bolinder will run light indefinitely without any load whatever, and without any recourse to the Blow-lamps.

The Bolinder will run at any load down to a speed which only enables the engine to just turn over, this manouvering is carried out by a special device which entirely does away with the necessity for the Blowlamps.

Bolinder Engines reverse in under 3 secondsaccording to the power of the engine-and what is more reverse without a failure and without a strain on the crankshaft.
