PAULINE JOHNSON  
MEMORIAL

Is to be Located in Free Lib-  
rary—Selection of Mo-  
hawk Church is Defeat-  
ed by One Vote

A meeting of the Brant Historical  
Society took place yesterday after-  
noon to consider the placing of the  
memorial tablet to the late Miss E.  
Pauline Johnson.

It was moved by Judge Hardy  
and seconded by Mr. E. R. Read:  
"That the Memorial Tablet to the  
late Emily Pauline Johnson be  
placed in His Majesty's Royal Chap-  
el of the Mohawks as the most fit-  
ting place for the Memorial."

That this church has been the  
one most intimately connected with  
her life, as a place of worship, and  
had for her many sacred and ten-  
der memories, while Miss Johnson  
was in no way connected with the  
Public Library.

That all the members of her fam-  
ily, who have passed away, rest at  
Mohawk Church, including her fa-  
ther, the late Chief G. H. M. John-  
son, her mother, and her brother,  
Beverley, and this spot is indis-  
solubly intertwined with the life of  
the deceased, her family and fore-  
fathers.

That consecrated places of wor-  
ship, not Public Libraries, are the  
appropriate repositories of Memo-  
rial Tablets to the dead, the rule as  
to publicity being the main consid-  
eration in the case of public monu-  
ments, not obtaining in the case of  
tablets.

That the Church itself from its  
ancient character, unique history  
and priceless memorials, has long  
been a shrine for distinguished vis-  
itors from all parts of the Empire  
and neighboring countries when ot-  
her buildings and other institutions  
of local public interest, such as are  
common to all communities, remain  
unvisited.

That the weekly Sunday services  
in the church attended by all In-  
dian pupils at the Mohawk Institute  
make the placing of the tablet  
there of special educational value  
and as a source of inspiration for  
the Indian children.

That His Majesty's Royal Chapel  
of the Mohawks is recognized as  
"The Abbey" of the Six Nations  
where repose the leaders of their  
race; that this Tablet there finds its  
most fitting environment and as-  
sociation, and is the just due of the  
Six Nations, as of right, in their  
commemorating the fame of their  
most distinguished daughter."

The resolution was lost by one  
vote.

On motion of Rev. Mr. Gordon,  
the Free Library was decided upon  
for the location of the tribute.

## DAYLIGHT SAVING

Sir George Foster Introduc-  
es the Necessary Bill

Daylight Saving 7(c)ob-re-la-w)  
Ottawa, June 16.—Canada is to  
have "daylight saving." Sir George  
Foster at yesterday's Parliamentary  
sitting introduced a Government bill  
to provide for the time in Canada  
being in advance of the solar mean  
time during the summer months.  
He explained that it meant turning  
the clocks on one hour, and would  
come into effect upon proclamation  
by the government.

Mr. A. K. McLean asked whether  
it was proposed to make the bill ef-  
fective during the present summer.

Sir George replied in the affirmative,  
and intimated that the reversion to  
solar mean time would come again  
with the end of September. He  
promised to explain the bill fully on  
its second reading.

The strike of the Ladies' Tailors'  
Local 104, custom work, in Montreal,  
is still being resolutely maintained.  
Since the long struggle has been on  
every one of the strikers has been  
approached, individually, by the em-  
ployers, and offered special induc-  
ements to return to work at an ad-  
vanced wage scale on the piece sys-  
tem, the demand for the abolition of  
which caused the strike. All these  
efforts, however, have proved fruit-  
less, and the hope that a few work-  
ings might be found, who would  
consent to go back has not been real-  
ized. The battle will be fought, not  
to a finish, and an appeal has been  
sent out with official sanction to all  
the heads of the craft, asking for  
financial assistance to supply the  
battle being waged in these  
times of the high cost of living. The  
local is in good shape, and the de-  
mand for the custom tailors' union  
label in the city is steadily growing,  
which goes to show that the other  
crafts are directly interested in the  
outcome of the fight. This battle, it  
is confidently predicted, will lead to  
the entire abolition of the piece work  
system in the custom tailor trade in  
Montreal.

REVOLUTION  
MAY BE RAGING  
THROUGH SPAIN

Curtain Falls Over Country,  
No Word Received For  
Three Days

INTEREST IS ROUSED  
Army and Government at  
Odds on Military Re-  
forms Issue

London, June 16.—The Evening  
Standard says: "For three days no  
cablegrams or telegrams have been  
received in this country from Spain.  
The latest letters delivered in Lon-  
don are dated June 9. Intense specu-  
lation as to what is happening has  
been aroused. The Evening Standard  
was informed at the Spanish Embassy  
yesterday that Senor Merry del Val  
had received no news bearing on the  
situation. There is a disposition in  
Spanish diplomatic circles to discount  
the reports of the existence of a re-  
volutionary movement. This view,  
however, is not shared by the heads  
of big English business interests in  
Spain.

"The questions at issue go to the  
very roots of national life," said a  
high diplomatic authority yesterday.  
"The movement is distinctly between  
the army and Government. Since the  
Moroccan campaign there has been  
trouble with infantry officers, who re-  
peatedly put forward the demands  
for reform. The dissatisfaction has  
increased rather than diminished. On  
top of that has come grave economic  
unrest in Barcelona, Bilbao, Madrid,  
Cadix and other important centres.  
The greatest centre of unrest is un-  
doubtedly Barcelona, where effective  
power has unquestionably passed  
from the civil authorities. Now there  
is the strongest reason for stating  
that the Madrid government is actively  
supporting the Infantry Committee in  
demanding drastic and immediate  
military reform."

Ultimatum from the Army  
The Times prints a special despatch  
dated Madrid, June 6, telling of how  
Gen. Alfau, deputed to suppress the  
infantry union committee of defence,  
became too popular with the army.  
Gen. Marina was sent to Barcelona  
to replace him and smash the move-  
ment, but was confronted with an ul-  
timatum from the army committee  
demanding the termination of the  
colonial campaigns, and continuing:  
"We have been sacrificing ourselves  
for twenty years in order that other  
departments of national life which  
claimed preferential place in the  
minds of Ministers should be consti-  
tuted. The public, and even those  
who have obtained the highest posts  
have confessed in parliament, and  
outside, that our sacrifice has been  
useless, for the springs of national  
life have not been regenerated, and  
the administration has not improved  
the army, which still finds itself ut-  
terly disorganized and despised."

The ultimatum proceeded to com-  
plain that the army's superior com-  
mittee, having complained, was at-  
tacked and summarily condemned,  
and demanded their immediate re-  
lease and reinstatement within 12  
hours at all garrisons throughout  
Spain. The Times despatch concludes  
that Gen. Marina's feelings on reading  
this remarkable pronouncement are  
said to have been indescribable, but  
he soon convinced himself on en-  
quiry of the Barcelona regiments  
that there was nothing but to sub-  
mit, as the officers were determined  
to release their comrades by force  
if necessary. His conclusion was tele-  
graphed to the King, and before the  
12 hours expired the arrested officers  
were released. This astounding de-  
mand of constituted authority by  
practically the whole army, has  
deeply impressed public opinion. The  
press is cautious and sparing in its  
comments.

There is no news available at mid-  
night of the Spanish situation. It is  
not known whether a revolution is  
actually progressing or not.

ing cows in a pasture, yesterday at

was found hours later when his fam-  
ily went in search of him.

## Hurrah! How's This

Cincinnati authority says corn  
dry up and lift out  
with fingers.

Hospital records show that every  
time you cut a corn you invite lock-  
jaw or blood poison, which is need-  
less, says a Cincinnati authority, who  
tells you that a quarter ounce of a  
certain ointment can be obtained  
at little cost from the drug store, but  
is sufficient to rid one's feet of ever-  
hard or soft corns or callus.

You simply apply a few drops of  
free-corn ointment to a tender, aching corn  
and soreness is instantly relieved.  
Shortly the entire corn can be lifted  
out, root and all, without pain.

This damp, sticky stuff dries at  
once and is cleared to just shrivel  
up any corn without inflaming or  
even irritating the surrounding  
tissue or skin.

If your wife's high heels she  
will be glad to know of this.

"Whatever is  
New is Wrong"

Have you ever noticed that thought element in the human  
mind? We seem to be such creatures of habit that even when  
something very helpful and convenient is placed before us we re-  
fuse to make use of it until somebody else has tried it. Even  
then sometimes we cling to our old worn-out utilities with a dog-  
ged persistence worthy of a better cause.

That's why it has taken some time for the Automatic Tele-  
phone to become really appreciated. It was such a radical de-  
parture from anything ever tried before that people were just a  
little afraid to test its merits. However, that day has gone by  
and now Automatic service is everywhere recognized as the most  
practical because the most economical and efficient service yet  
invented. Its privacy, speed and efficiency recommend it to the  
progressive thought.

## STRIKERS CLASHED

By Courier Leased Wire.

Port McNicoll, Ont. June 16.—  
About 150 of the foreigners among  
the C. P. R. freight handlers here,  
went on strike on Wednesday. Last  
night, about ten o'clock, while the  
men who had remained at work, were  
on their way home, from the docks,  
the strikers attempted  
to mob them. The constables there-  
upon let off a few shots for the pur-  
pose of intimidating the strikers, and  
the latter immediately dispersed. So  
far as is known, no one was hurt in  
the fray. The strikers are all being  
paid off to-day, and everything is  
quiet.

Driving a car 40 miles an hour  
through the city streets, Norman  
Morris, the young son of a Chicago
