"What I can't understand is what you ever saw in poor little me," said the girl,
The young man laughed, "I guess some
of the other girls well be saying that,"

\*\*\*\*\*\*\*

of the other girls well be saying that," he replied.
"Saying what?"
"Wondering what I saw in you."
"Well, of all the conceited things."
"You aren't mad, are you?"
"Mad! Oh, dear, no. Why should I be

"I don't see any reason why you "Certainly I'm not. It would naturally please me to have you make insulting remarks. Please let go of my hand. I don't wish you to hold my hand. Do you hear?" you hear?"

you hear?"
"Why, Marguerite."
"I never heard of such a thing. Well,
I'm glad you said it before it was too
late. They can wonder now why I threw
you over. I suppose I must be absolutely crazy to do it; men like you are so
rare, and any girl they are kind enough
to distinguish with their attentions
should consider herself lucky, no doubt,
but—"

"Marguerite," said the young man, im Marguerne, said the young man, inploringly, "you are not going to take
off that ring! Wait, just tell me what
I've done or said. I didn't mean—"

"If you had not meant it you wouldn't said it. You must have a highly exalted opinion of yourself, or a very poor one of me."
"Marguerite, I haven't any opinion of

"Will you kindly tell me in what re spects I happen to fall so far below the standard of the other girls? I'm asking in all humility. Perhaps I may be able to correct some of my faults." "How absurd."

Absurdity is one of them, is it? Thank you, go on."
"I meant that it was absurd to sup "I meant that it was absurd to sup-pose for a moment that you could fall below any standard. What I meant to

say was that the girls might say so—out of mere jealouy and envy." "Because I was fortunate to get you." "Becaue you are o far above them in

every way."
"Oh, I dare say," said the girl, relent-"You think they would say that because I am not better looking,"
"How could they say that?"
"Well, out of jealousy and envy, per-

"Marguerite," said the young man, earnestly, "jealousy and envy could never go to such length as that. Even if a girl wanted to say it she wouldn't becaus she would know that people have eye to see for themselves how beautiful you They might as well say out of malice that black is white, that daylight

is midnight gloom."
"You are talking nonsense now." "Oh, am 1? If that's the case, yo never looked in a mirrer. You know am not talking nonsense." "Well, I don't suppose I am absolutely

Oh, I wish I could just tell you what a beautiful girl you are—like one of these pictures. You are as pretty and graceful as a ——Oh, there isn't anything you don't double discount, and that's all there is to it. And you're smarter than the whole bunch put together, If I were

clever like you-"
"Ted, don't be foolish. Of course I know that I am not a fright, and I am not a fool, but you've got too high an opinion of me, darling. I don't understand it. It that some day you may see someone prettier."

"Not on your life. There couldn't be

"And on your life. There couldn't be anyone prettier."

"And eleverer."

"Marguerite," protested the young must hone man, "I'll back you against the field. When I said what I did, I meant that they would throw it out in a general way."

way."
"But they would be quite right to wonder," said the girl. "I wonder myself." "say it is all right now."
"Yes."

"Well, let's not start another quarrel till I get over the scare you gave me. 
-Chicago News.

STALKING THE KING OF BEASTS Fifteen yards from him there was a small tuft of grass about ten yards wide

Ah, if I could reach that. But before I could place that in straight line between him and me there were fifty yards of sunbaked mud to cross. I had lost many a shot from try ing to approach too close to game and had sworn, "Never again," But the 'Devil of the Stalk" was in my heart. would reach that grass or forgo the shot 1 drew, examined and replaced the two cartridges in my five hundred mag-mun, looked at the end of the barrels to see that they were clear of sand, placed the hammers at full cock, and inch by inch crawled from my cover out

onto the stark, naked plain The lion's back was turned to me, but I could clearly see the droop of the shoulders as he swallowed the lumps of meat. I was already half-way—my hand was slowly pushing the rifle another yard ahead, when my ear, tight pressed to the ground, hear a faint noise foilowed by a sharp hiss. A puff adder raised its villainous squat head from the dust, looked into my face with flashing eyes and quivering tongue and sulkily crawled away. Startled I had drawn back my head but, seeing it decorate had invasible to the day what it was Jack Rapidde part, had immediately again lowered it behind my outstretched arm. The lion, however, had caught the movement and instantly turned towards me.

The sun played full upon his face, and I could plainly see the wrinkles on his nose and the blood-flecked slime dripping from his jowl. He took half a do en steps towards me and then to my

meal. Again I crept forward till at last the patch hid him from my view. I promptly rose to my feet, and bending low, glided rapidly towards—the grass, Fifty yards—torty yards—thirty—twenty—ten, like midwinter snow my footfalls sank upon the dust. I held my breath. My fingers twitched on the trigger guard. My learn stood still in the last tautening of a frantic strain—yet another six steps and I could peer through that waving banch of grass—at has?

A faint rustle broke the heavy silence

of the scene. A grand, sad face peeped round the corner of the grass. Our eyes met.

The wondering expression broke into a hideous snarl—and before I could recover from my surprise the lion had gone. Sick at heart, I dashed round the intervening clump; the wide stretch of grass forty yards beyond, parted to the rush of a great yellow form; loud spoke my gun; plump came the answer of the bullet speeding home; a fierce rumbling growl; and north, south, east and west the seemingly untenanted world was dancing in the noontide heat, while a smoke-wreath tolly drifted down the plain. - Ewart Scott Grogan in June Outing

How Japan Thrives on War.

(Harper's Weekly.) (Harper's Weekly.)

The record of Japan's recent material progress is, it seems, as remarkable as her progress in military achievement. The increase of postal savings during the first eight manths of the war, for example, shows an increase from \$15.380,000 to \$18.612,000, indicating an astonishing increase of the sources from which such savings are drawn—the incomes provided by industrial employment. The savings bank deposits have increased 21 per cent. during the same period. There has also been an increase of bank reserves amounting to 5.5 per cent, an increase of 10.5 per cent, in rice production, of 8.2 per cent, in exports and of 6.2 per tent in imports.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

INCREASING USE OF CEMENT. Twenty Times as Great Now as Ten

Years Ago. With all that has been written from With all that has been written from time to time in recent years concerning the value of cement as a building material suitable for innumerable purposes, few people realize the extent to which its use has increased. According to statistics given by a man in the business, the total production of cement in this country in 1895 was 990,324 barrels. Last year more than 22,000,000 barrels were produced here, and to guard against. Last year more than 22,000,000 barrels were produced here, and to guard against 2ny possible shortage of supply 3,000,000 more barrels were imported from abroad. During this time the cost of manufacture has by improved methods been reduced more than 100 per cent. Practically all of the content of the cost cally all of the cement used in this country is manufactured here, and of the vast amount given above fully 70 percent. was produced in Pennsylvania and in two counties in the State of New Jer

sey.

The principal ingredient in this cement is a natural rock known to geologists as Trenton limestone. This is found in small deposits in many parts of the United States, but the only great bodies of it so far discovered are in Lehigh and Northampton counties, in this State, and in Warren and Hunterdon counties in New Jersey where the deposits are learned. Normampton countries, in Marren and Hunterdon counties in New Jersey, where the deposits are large enough to last for centuries, even making allowance for a continued increase in the Mary This rook is treated by a comits use. This rock is treated by a com-plicated process involving the use of a large amount of machinery, and in its commercial form the resulting cement is commercial form the resulting cement is a fine powder. It has the property upon being treated with water of binding itself and the substances with which it may be mixed into a homogeneous mass, which sets rapidly and becomes harder than granite. In this condition it is impervious to water and weather, is unaffected by heat or cold, and does not contract or expand. While its extended use tract or expand. While its extended use is a growth of the last ten years, it has een employed in certain restricted operations for a much longer period, and its durability under all conditions has been definitely established. Entire houses have been made of it which, when finished, areas if cut out of a solid block of stone. The subway of the Philadel-phia Rapid Transit Company from the Schuylkill River to the present eastern end of the work is such a block, practi-cally without joint or seam. Another interesting example of what may be done with it is found in the pedestal of the statue of "The Pilgrim," recently erected on the south pavement of City Hall. Before it had hardened inscriptions wer cut an each face of the cement pedestal which now stand out as clear as if chis-eled in marble or metal. Its cheapness A Query for the Business Men.

## GIVES REASONS

Why he Pins his Faith to Dodd's Kidney Pills.

ease-The Great Canadian Kidney Remedy Banished His Pains.

Acadie Siding, Kent Co., N. B., July 3. (Special).—Caliste Richard, J. P., one of the most highly respected men in this part of the country, has joined the great army of those who pin their faith to Dodd's Kidney Pills. As usual Mr. Richard has good reasons for what he does and he states them as follows: "I have been troubled with Kidney Disease for forty years and the result was I found myself a worn out man at seventy-two. But after using two boxes of Dodd's Kidney Pills I find all my pains are gone and I can employ all my days with the best results. I cannot let the opportunity pass of letting the public know the great good Dodd's Kidney

Dodd's Kidney Pills cure all rheumatic pains by removing the cause—uric acid in the blood. They put vigor and en-ergy in place of the pain.

Cyclones in Jamaica.

Terribly destructive though cyclones are there are occasions when they have a beneficial effect. Some little time ago Jamaica was swept by a cyclone from end to end, and the destruction it wrought was estimated at nearly three millions. The community bravely faced the situation, and now recognizes that even a huricane is not without its bless-The fruit seasons have been mor favorable since the cyclone than experienced for many years past. "A hurricane,' says the acting Governor of I asked her the Jamaica, "appears to assist in promoting was Jack Rapidde fertility of the soil. The total destruc tion of the banana crop and the atention compulsorily given to clearing cultiva-tion have resulted in a yield in the last few months of a much finer grade of fruit than had been exported on so large a scale previously."

The "Why" of Buying.

"Every time you make a purchase stop a moment and think just why you bought the article you did buy in preference to some similar article," suggests a magazine devoted to publicity. And it might well have added: "Ask yourself why you bought it at the store where you did buy it in preference to some other store that sells the same sort of goods." Ninety-nine times out of a hundred the word "advertised" in the sense of "advised"; yet the statement would serve very well if the modern understanding of "advertised" were substituted. The business-getting power of a well written "ad." is vastly enhanced by the fact that every buyer whose commercial friendship it wins himself becomes an auxiliary advertiser of the goods extollated. goods. Ninety-nine times out of a hundred the article purchased is advertised, and the store that sells it advertises. The man who is influenced by other people's vided that the space it occupies is skill-advertising ought to be pretty well confully employed to produce the desired vinced that he can influence other respectively. by his advertising.

THE BIRTH RATE.

Something for the Good People Who Are Troubled Over It.

the west this spring.

The withdrawal of so many young men from Ontario means the withdrawal of an almost equal number of young women when the settlers of 1905 come

back or send back for brides.
Ontario is being bled as no other community on earth is being bled for young nurses and brides to soothe and brighten the lives of aliens across the line.

It is absurd to compare the birth rate of Ontario, where everybody of mar-riageable age is going west, with the birth rate of Quebec or of France where everybody lives and dies at home. Ontario's birth rate was at its high-est when there was no exodus to the west.

its lowest when there is an ever increas-ing exodus to the west.

It is bad enough for Onfario to lose

LIKE TEARING THE HEART STRINGS .- "It is not within the conception of man to measure my great sufferings from heart disease. Wireless on the Trains.

The Chicago and Alton Railroad is about to make some interesting experiments looking to the use of the wiretrains. The inventors claim that their device will be second only to the air brake as a means of protecting life. and property on railroads.

The signalling device, occupying a space of little more than two square feet, is placed on top of the cab of the engine. A dynamo about the size of those used with electric headlights supplies electricity to interlaced wires inclosed in a metal globe about 18 inches in diameter. This globe is mounted on a short staff, and it is claimed that by changing the angle of the staff the direction of the signals can be changed at will, making it possible to signal to either train desired on a double-track

engineer's head whenever there an obstruction on the same track within 20 miles, and will also give similar warning of a misplaced switch.

The "Square Deal" in Business,

Advertising poor goods is like going to law with a bad case. The chance of re-couping the outlay is exceedingly slim. couping the outlay is exceedingly slim. The merchant who is ashamed of his wares, is not recommended to advertise them, for the more people he induces to try them, the greater will be his loss in the long run. But he who sells what is honestly made and honestly priced, and tells the public about it, makes hosts of new friends every time he goes into print. An "ad" that sells directly only fifty cents' worth of goods may by the means of securing a permanent customer who will buy \$500 worth in a year. It is easy to influence the consumer provided he is given a "square

Educative "Ads."

The best way to win support for a usiness enterprise is to get people interbusiness enterprise is to get people inter-ested in it. The best way to interest them is to tell them something they don't know, but are likely to want to know, about it. For instance: Few peo-ple know anything about the ins and outs of professional photography. Any good professional photography will con-firm the statement that nine persons out of ten don't know what toward out of ten don't know what to wear when they sit for a portrait. And per-haps almost as great a proportion don't know an artistic photograph when they see one. It is the photographer's busi-ness—if he knows it—to educate them (and at the same time increase his clientele) by running informing "ads." in the newspapers. The photographer is cited only as an example. There are others. Educative advertising pays because it is read attentively and remembered.

A Legitimate Endless Chain.

vinced that he can influence other people impression, is the starting point of a sort of endless chain of business.

Ontario has lost 8,000 young men to

Shirt waists and dainty linen are made delightfully clean and fresh with Sun-

light Soap. Municipalize Everything.

The city of Leeds, England, has gone int Ontario's birth rate is necessarily at the flower of the finest people on earth without having the reputation of the English portion of Canada assassinated by a lot of shallow homilies about the decline in the Ontario birth rate.

The city of Leeds, England, has gone into the business of supplying its residents with milk. It has purchased a dairy farm, and will purchase others, if the demand for the corporation brand of the lacteal fluid warrants it. Some people may think this is an unwarrantable extension of the principle of municipal ownership. It is nothing of the kind. Everybody in Leeds requires milk. People can get along without street cars, without telephones, without electric light. They are merely luxuries. But everybody must have milk, for everybody uses it in some form or other daily: Instead of wondering at the temerity of Leeds in municipalizing its milk service, it is more in order to inquire why it does not follow up the municipalizing of its markets by municipalizing the sale of everything sold therein, meat, vegetables, butter, cheese, everything required to sustain life. And when it has gone thus far, why should it not proceed the municipalize the sale, if not the manufacture, of the clothing required by the people? And why should not Leeds provide its people with their amusements, and municipalize the subject of the clothing required to sustain it is churches? When it has gone thus far it might as well flinks up the job and abolish all individual effort and initiative. What a prosperous and progressive city would Leeds then be? Half Rose, Half Thorn.

(Boston Transcript.) A rose once grew within a garden fair, And lived upon the sunshine and the dew; And Cupid, one day passing, saw it there, And, seeing, thought the lovely rose to woo. His yearning heart went out unto the rose Each summer night, and with each early

morn But found, alas, as many a poor hear But found, alas, as many a poor near knows,
That love is half a rose and half a thorn.
A blight fell on the beauteous rose one day,
And pale it grew, the fairest rose of years;
And soon, alas! it faded quite away,
And Cupid, lo! was left alone in tears.
It was the old, old story anew—
That lives, we know, with every night and
morn—

Oh, love, how sweetly thou art—And yet, each night and morn We learn to know, yes, every heart, That love is half a rose and half a thorn.
