Mr. C. R. Starr, agent of Messrs. Noland & Lowe, apple salesmen, London, has our thanks for a useful calendar and blotting pad combined. It is the best thing of the kind we have yet seen.

The farmers in the vicinity of Digby are, it is said, about to form a co-operative company, composed of some 75 of the principal agriculturists of the district. The object of this organization will be the direct placing of all farm produce in the most favorable markets, and for this purpose agents will be engaged in different places to act in the interests of the company.

Be a well man, a free man, a happy man, by taking K. D. C.'s great restorative for all stomach troubles.

The mails will be carried over the Nova Scotia Central from Middleton after the first of January. The new arrangement will be of great advantage, as mails from Yarmouth, Digby, and all points west of Middleton and all points west of Windsor Junction will reach Bridgewater, Lunenburg, and even Liverpool on the same day they are mailed. At present all these mails go to Halifax and then by mail route along the shore, requiring two days instead of one.

The darkness of the night and the bad state of the roads prevented a large audience gathering to hear Prof. Tuffe's lecture on the "Great North-west." Those who did attend were amply repaid in listening to a clear and detailed description of life in the great country lying west of Winnipeg. Prof. Tuffe is a gentleman of keen perception, and nothing seems to have escaped his observation. His lecture was a most interesting and valuable contribution to our knowledge of the north-west, and we hope that many of our readers will be able to visit the region in the near future. He will have home, let them occupy this rich and generous land where golden harvests repay the laborer's toil. A vote of thanks was tendered the lecturer at the close. —Annapolis Spectator.

Dr. Cadieux, a temperance lecturer gave a number of interesting addresses in Wolfville this week. He spoke in the Presbyterian church on Sunday afternoon, in the Methodist church on Sunday and Monday evenings, and in Witter's Hall on Tuesday evening. He is a good speaker and his lectures were much enjoyed.

The stories in the January *New England Magazine* are of a quaint unusual character, very refreshing in these days of claptrap sensationalism. Edith May Norris, "A Salem Witch," is a bright, little story with a strain of pathos in it, and something of Hawthorne's power. "The Yellow Wall-paper," by Charlotte Perkins Stetson, reads like the scrappy reminiscences of an opium debauch.

As 1892 will be leap year the Halifax Mercury thinks it will be doing a good act by publishing a list of some 400 eligible candidates for matrimony. This list appears in last week's issue of that paper, and comprises a great variety of occupations, including lawyers, doctors, editors, professors, teachers, merchants, bankers, clerks and insurance agents.

The school inspectors of Nova Scotia together with the professors of the Normal School and Supervisor McKay, upon the invitation of Superintendent of Education McKay, are now assembled in a conference upon educational matters. All the inspectors are in the city and the conference will no doubt be productive of good, placing the officials of the board of education throughout the province in touch with the educational system. —Chronicle.

The annual meeting of the stock and shareholders of the Windsor & Annapolis Railway Company was held Dec. 18th, when a report indicating considerable progress in the company's business was submitted by the directors, and adopted with acclamation. The president, in the course of his interesting speech, referred to the improved fast train service which had been so notable an incident in their history during the past year. He announced the company's intention to begin the running of the "Flying Bluebonnet" earlier next season, and to constitute it a daily service instead of four times a week, as before.

The report of Mr. Casey, Inspector under the Canada Temperance Act for the county of Cumberland, shows that out of 67 cases which have been tried during the past year, for violation of the act 60 have resulted in a victory for the prosecution. Six cases were appealed to the county court, of which Mr. Casey gained four, lost one and was settled. Mr. Casey is a faithful and efficient officer and an uncompromising enemy of the saloon. He has done most valuable service in the fight against the lawless liquor traffic in his county, and deserves the sympathy and support of all temperance people in his courageous efforts to enforce the law.

Hantsport Notes.

On Christmas morning (about two o'clock) fire was discovered by Mrs. Yeaton in the dry goods store of Carter Bros., immediately opposite. An alarm was given and in a few minutes a crowd collected, who worked with a will. The store was burned, with all its contents, but by gallant efforts the fire was confined to this building. The house of Mrs. Wm. Davidson, only fifteen feet away, was on fire two or three times, but the willing warriors fought the flames manfully, and saved the residence, the north end of which was badly scorched, and will need new clapboards. Mr. Carter had \$2500 insurance on the stock, and \$700 on the building which will only partly cover the loss. Mr. Carter left the store at 11:30 the previous night, in company with his clerk, and everything appeared to be as safe as usual. Cause of the fire unknown.

We are pleased to learn that efforts are being made by some of the leading men of Hantsport to build a dry dock, and that a stock company is to be formed if sufficient encouragement is given. We trust the movement will be successful from the very outset. Hantsport is a good location for such an enterprise. Very frequently vessels are taken there from different points for repairs on the beach, but with a dry dock business in this line would rapidly increase. Ship owners would do well to give this enterprise a helping hand, which we have no doubt whatever will prove a profitable one. —Journal.
