THE GERMAN ARMY BILL. THE MEASURE REFERRED TO A COMMITTEE CONTINUATION OF THE DEBATE IN THE

LONDON, March 2.

A Berlin despatch says the Reichstag today resolved, in accordance with Von
Benningsen's motion, to refer the Army
Bill to a committee. Herr Stauffenberg,
National Liberal, said all parties are agreed
as to the necessity of maintaining the
defensive power of the country, but
the hand of future Parliaments
ought not to be bound for seven years.
Herr Windthurst, Ultramontane, said all
were willing to guard the integrity of the
Fatherland, but the necessity for the increase of the army had not been adequately
placed before the House. Bebil, Socialist,
declared if an enemy should threaten Germany the Social Democrats would join in
repelling the invader.

A Berlin despatch says the reference of
the Army Bill to a Committee is almost
tantamount to its final acceptance.

TORONTU,

crowded with neighbours, who may, at any time, become in some way hostile to the Empire, in which case, lest the frontiers are properly fortified, invasion is a relatively inviting experiment to make, hence a strengthening of her frontiers on the part of Germany is now to be regarded in the light of a menace, while on that of Russia, there exists no other rational explanation of the same action. Further," says the Gazette, "Germany is protected against suspicions of an intending expedition of conquest against her present neighbours, by the fact that she never had undertaken them in the past, and under her present conditions, such enterprises are more improbable than ever before."

BISMARCK'S TRIED COLLEAGUE. PRINCE HOHENLOHE IN HIS NEW POSITION

—THE FRIEND OF FRANCE—THE PRINCE'S PROBABLE SUCCESSOR AT PARIS. LONDON, Feb. 29. A Paris despatch says Birmarck is prosecuting a series of reforms, fendering very advantageous the presence of a tried colleague without personal ambition. Thanks to Prince Hohenlohe, the intention of Prince Bismarck to make an attack on France has been abandoned. Le Temps says Prince Hohenlohe will be better able in his new position to promote his peaceful views towards France than before. Prince Reuss, who probably succeeds Prince Hohenlohe at Paris, is equally pacifically disposed.

OBJECT OF THE APPOINTMENT.

A Berlin telegram says that the National Gazette says slight importance is attached in well informed circles to Prince Hoben-lohe's appointment to the Ministry of Foreign Affairs, which is attributable to a desire to facilitate intercourse between the Emperor and Bismarck, on account of the indisposition of the latter.

THE OATTLE EMBARGO Removal of the Restriction on Live Ste Curron, March 1.—Instructions have been re-sived by the United States Collector of Customs, at he Suspension Bruge, N. Y., to admit the importa-on of cattle from Canada.

MINE IN IRELAND, NEWS FROM ABROAD.

ER'IDAY, MARCH 5, 1880.

is called the North German Gazetic's astempt to formulate a political policy for Russia out of the fact that the latter country is fortifying her frontier, that fournal continues energetically to disease the question, with a view of showing that the military preparations on the part of Germany are not to be interpreted as the result of a disposition to be ready for possible invasion. In arguing the point, the Gazette anys Russia is so completely gnarded by a natural barricade that her position can hardly be strengthened, or her security increased by throwing up any number of fortified defences. "The history of the invasions of Russia," asys the Gazette, "is not, upon the whole, of a character to encourage their repetition. The immeuse area of that country, the distance from each other of its vital points, the inhospitable nature of its climate through so great a portion of the year, the difficulties attending enforced marches, the comparative rarriey of good reads and other considerations, will deter any Power from invading Russia, except of there being no other solution of a war problem. Germany is not in the same position. Here

Billion or the United States and the secondary of the Silicon and the state of the Silicon and the Silicon and the state of the Silicon and t all the Irish charitable committed and the state of the interior of the attack on the Mansion House of Mariborough's Committee, and characterizes the attack on the Mansion House fund as an outrage to all decessoy and a grees and shameful libel upon an assembly of gentlemen, reckoning among them the most trusted and respected of the laity, as well as Blahopa.

The Freeman asks what Parnell and Dillon have done that they should dictate. The Mansion House is intrusted with \$350,000, while the Farnell than has secured only \$70,000; though every nervy has been strained. The article continues, "Even the New York Heraid fund, which was started only the other day, has eclipsed him and altogether set him out of the running. The fact being that by his in tolerant violence, he has estranged every nensible man in both countries." The Freeman concluder, "We stood shoulder to shoulder with Mr. Farnell more than once, but he cannot expect to shoulder with Mr. Farnell more than once, but he cannot expect to shoulder with Mr. Farnell more than once, but he cannot expect to denounce without reason, to rave without remonstrance, and least of all, in a distant country where a reply cannot overtake him or a libel suit speedily stop him, where the whole people at a tick has created a great sensation, as indicating a coming breach between Farnell and Gray, the latter of whom was, hereful and Gray, the latter of whom

MULTIPLEX TRLEGRAPHY. ALEXANDER'S ACCESSION Mysterious Disappearance of the Celebration of the Twenty-Fifth Canadian Inventor.

A MILLION DOLLARS AT STAKE. THE DAY PASSES OFF QUIETLY, QUERRO, March 1.—Over a year ago, a young French-Canadian telegraph operator of this city, named J. W. Chasse, made ineffectual attempts to induce the City Council to cast aside our present fire alarm telegraph and substitute for it a new system claimed to have been invented by himself. The same Mr. Chasse has lately been the hero of some interesting incidents which have eccurred in the Unit d States. About a year ago, he claimed to have discovered the secret of multiplex telegraph, by means of which invention any number of mersages could be sent over the same wire successfully at the same time, and which exceeded the quadruplex

Anniversary.

PRICE THREE CENTS.

Following is the substance of despatches received during the day, partly in cipher, from St. Petersburg. Although this is the long anticipated twenty-fifth anniversary of the Carr's accession to the throne, the Nibilists have as yet failed to carry out-their avowed threat of firing St. Petersburg. Everything is quiet. The simple programme for the calculation.

Death of a Wessan Through Her Husbane's Waiful Reglect.

Ottawa, Feb. 27 —A terrible case has come to the ears of the county authorities. About two weeks ago smallpox broke out in the family of a man living on Richmond road, but the man denied that the disease was in his family and would not allow his neighbours to come near his dwelling. Last Thursday the man was etricken with the disease, and on Saturday night his wife was confined and died with her infant, from neglect. Up to the last, and well knowing the condition of his wife, the man refused to send for assistance. On Sunday a medical man heard of the case and drove out to find the state of affairs as described above. To make matters worse, a family of six children are left helpless and homeless. The man has been taken to the city heapital, and should be recover, an attempt will be made to have him panished for his heartless conduct.

NOTION.—The Globe Lightning Red Co. have commenced business, for the season of 1880, and are now prepared to show samples of their goods, and to make contracts. A good responsible and reliable agent wanted in every township in the Dominion. None other need apply THOMAS C. HEWITT, Manager, 494 King street east, London, Ont. 414-2
