

League of Nations

(Continued from page 2.) The European delegates gave no signs of recovery from their astonishment as the Canadian delegate concluded, but he was warmly applauded from all the other benches.

Debate on the subject had been opened by Dr. Nansen, of Norway. It was based on the report of the committee on technical organizations. Dr. Nansen insisted upon the necessity of co-operation in these organizations by countries not members of the League.

Replying to M. Hanotaux's interpretation of his remarks as an attack upon European statesmen, Mr. Rowell said he did not so intend them and that if any delegate so construed his remark he had no hesitation in withdrawing his words.

Mr. Rowell's second appearance on the speaker's stand removed the embarrassment his frankness had produced in certain parts of the Assembly and he was applauded after proposing adjournment of the debate until tomorrow in order to enable further study for the purpose of conciliating the divergent views.

Geneva, Dec. 10.—Canada having forced a complete back-down on the part of the League of Nations Assembly with respect to the formation of permanent organizations to consider finance, transportation and public health questions, considerable comment has arisen in connection with the American charge that England has six votes in the Assembly against one for the United States. In his assault on old world diplomacy and European statesmanship, Hon. N. W. Rowell certainly gave no one the idea that Canada was voting with England on the matter of placing financial and other matters in the hands of European statesmen. His speech, as a matter of fact, only further emphasized what the action of other Dominion delegations has shown from the outset—a determination to think and act for themselves on League affairs. And invariably the Dominion delegates have been aligned with the Liberal elements in the Assembly, as opposed to those representing the old order of diplomacy. In supporting the suggestion for the creation of a financial and economic committee, Mr. Rowell declared that Canada must once more go on record as opposing any league action tending to control raw material.

London, Dec. 10.—The correspondent in Geneva of the Times remarks that the incidental mention by Rt. Hon. N. W. Rowell of the common-place fact that the statement of the mother country have no voice in the management of the affairs of Canada, produced the amusing effect of a bombshell upon many of the foreign delegates and journalists, who appear not to have had the faintest conception of the relations existing between Great Britain and the Dominions. From their comments, says the Times correspondent, one would have imagined the British Empire was on the verge of dissolution, and the view appears even to have caused the liveliest interest in Paris. The meeting of the Assembly of the League of Nations, will, he concludes, not have been in vain, even if it does nothing else but correct some current misapprehensions regarding the British way of doing things.

Carrying out the provisions of the West Indian trade agreement two ships of the Canadian Government Mercantile Marine—the Canadian Fisher and Canadian Forester have been "re-conditioned" so as to provide for passenger accommodation. Each will carry thirty passengers and will operate this winter between Halifax and West Indian ports.

A case of leprosy has been discovered in Toronto the first in eight years, the previous case being that of a Chinaman. The present case is that of a woman from the west Indies. The case has been diagnosed by Dr. J. L. McKinley, nose and throat specialist, and the germs have been segregated by Dr. W. E. Ferguson, pathologist at the Western Hospital. Dr. Ferguson said there need be no fear of a spread of the disease, as it is only mildly contagious. The treatment the woman leper is receiving is very similar to that given for tuberculosis.
