Norquay Kicks.

The discontent in Manitoba with the policy of the Dominion government has at length driven Premier Norquay into a position of open antagonism to Sir John, and led him to take a firm stand for provincial rights. 'Norquay has been so long regarded as a thick-and-thin adherent of the Deminion ministry that his outspoken announcement of his determination to invoke the interference of the Imperial government, if necessary, to uphold Manitoba's interests has naturally created a considerable sensation. Partizan as he has always been, however, he could not acquiesce tamely in the arbitrary course of the Dominion towards his province. It is only in Ontario that party men are to be found so shamelessly subservient as to sacrifice both honor and the interests of their constituents at the
