Plunged Into Boiling Waters.

Worcester, April 5.—Acting upon information furnished by Dr. Hosea M. Quinby, head of the Worcester State Hospital for the Insane, Thomas J. Brennan, 32 years old, an at-

tendant at the institution, was arrested to-day by Captain Patrick O'Day and Inspector Burke. He is charged with allowing two insane inmates to plunge Ralph K. Stewart, an aged inmate, into a bath tub of boiling water, which resulted in burns that may prove fatal before morning, the patient now being in a serious condition.

Harvest of Herring on the Pacific.

A Seattle report says that fishermen off Whidby Island are reaping a harvest by enormous catches of herring, which they are taking by fish scooped to King and Winslow's fish dock at West Seattle. The catch has run as high as 300 tons a day. The fish are bought by Okamoto Bros., fish brokers, who are salting and packing the herring. They expect to salt away 1,000 tons this season for export to the Orient. The herring are left in salt for eight or ten days, when they are dried and packed in boxes holding 400 pounds each. It requires about 100 pounds fresh herring to produce 60 pounds of dried herring. The fish are taken off Whidby Island in beach seines, and the prevailing price received by the fishermen is \$5 a ton.

Texas Sprinter Beaten

New York, April 3.—Gwyn Henry, the Texas sprinter and holder of the national amateur record for 220 yards, was defeated in that event and in a 100 yards dash at the hands of James Rosenberger of the Irish-American A. C., at the Thirtieth Regiment Armoury in Brooklyn Saturday night.

MEETS THIS AFTERNOON.—Tomorrow being Good Friday the meeting of the Municipal Council will be held this afternoon.

Upper Gullies.

Yesterday a blinding snow storm raged here all day. It began early in the morning and gradually increased until midnight, when it burst forth in all its fury. It was so rough that no children could get to school and school was not opened. The snow here is as deep as it was any time this winter in some places. The people were fully half the day shovelling paths to and from their houses.

Now that the paths are cleared and they can once more get together for a chat, the topic is "How will the roads be after a few days of warm sunshine?"—which we can reasonably expect at this season of the year. They know how bad the roads are now and they can guess how it will be when the snow melts; but they may guess and guess until election time before it will be remedied by the Morris Government.

Mr. English, of St. John's, is doing some pretty good work for some of the people here. During his stay here he had many calls for clock-work, which business he came about. His father is well known to the people here, who never forget a good friend. As soon as the people knew who he was they flocked to him from all quarters. We wish Mr. English every success and prosperity in his work.

There was a very fine show in the Upper Gullies schoolhouse on Saturday night last. The performers were Mr. Robert Moore and Miss Maisie Burt. A fairly large audience attended and the hall was nearly rent with shouts of laughter.

Mr. Alfred Andrews has lately returned from Bell Island on a business trip. He enjoyed his trip immensely and is thinking of going again next month.

Indigestion & Dyspepsia

In all its Forms can be Cured.

It is quite a daily occurrence to hear persons say: "Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything, I have no heart to exert myself and at times I care for nothing. I often have a pain in the pit of my stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation, and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden. Now, it seems a shame and pity for persons to be suffering like this when it is in their power to get cured by taking a Bottle of Dr. Stafford's Prescription. A sure cure for persons afflicted with stomach troubles it can be obtained at DR. F. STAFFORD & SON, Duckworth Street and Theatre Hill. Small size, 25 cents; postage 5c extra; large size, 50 cents; postage 10c extra. Mail orders must be accompanied by remittance.—Oct. 29, 1910.

S.A. Hotel Metropole.

The Salvation Army Hotel at 13 George Street has been greatly improved since the present manager, Ensign Wallace White took charge. It is renovated, enlarged and improved, and there is clean sleeping accommodation for 750 people. He has had the basement excavated and a large dining room added, as well as a kitchen. In the dormitories the beds are petitioned off and men can enjoy the privacy of separate rooms. Everything is kept scrupulously clean and there are shower baths provided as well as the ordinary lavatories. The Ensign insists on the men preserving cleanliness and good order, and he is therefore making a great success running the institution.

London, April 6.—Lord Crewe has made a rapid recovery from his recent illness. He has been out driving or walking every day this week. King George, on Saturday next, will act as godfather for his infant son and heir, Lord Houghton. The child will be named George Robert Archibald after the King, his father and his grandfather Lord Roseberry.

Sciatic Rheumatism

Unable to work or sleep—Six years of suffering—Cured by DR. A. W. CHASE'S NERVE FOOD.

Mr. Alex. Ethier, Jr., Clarence Creek, Russell Co., Ont., writes:—"My nervous system was run down to such an extent that I suffered a great deal from weakness of the nerves and sciatic rheumatism, and at times was like one paralyzed. I could not work, was unable to sleep, and had no appetite. "Nothing seemed to build up my nerves until I made use of Dr. Chase's Nerve Food. After having used about \$12.00 worth of this medicine I feel like a new man. I can walk all right, do a great deal of work, have a good appetite and sleep well every night."

When you have tired of experiments you can turn to Dr. A. W. Chase's Nerve Food knowing that persistent treatment is bound to be rewarded with lasting beneficial results. But you must get the genuine, bearing portrait and signature of A. W. Chase, M. D., 20 etc. at all dealers or Edmondson, Bates & Co., Toronto. Write for free copy of Dr. Chase's Recipe.

Dog's Chase of Rabbit Unearths Stolen Money.

Tampa, Fla., April 6.—A dog chasing a rabbit in the woods in Hernando county had a large part in finding part of the \$10,000 recently stolen from a registered mail pouch between Tampa and Tarpon Springs on the night of March 23. Four thousand dollars was recovered to-day by Post Office Inspector Jones and Deputy-Sheriff Bell.

Bell heard that a boy named Cicero Horace, 15 years old, was spending large bills freely at Brooksville, and he had the boy arrested. Horace said that while hunting recently his dog chased a rabbit into a hollow pine log, that he thrust his hand into the opening and drew out not only the rabbit but a sack filled with bills. Just then a negro came up and made him give up half the money. Then the boy proceeded to bury most of his half and to spend the remainder.

He showed detectives where he had buried \$4,000, and they dug it up. Later the boy's mother said that it was his father who had hunted the rabbit and found the money and divided with a negro, a work train cook named Anderson. Anderson and the elder Horace are missing.

The Head of Oliver Cromwell.

Exhibited at Public Meeting at London.

London, April 6.—The reputed head of Oliver Cromwell was exhibited last evening at a meeting of the Royal Archaeological Society at Burlington House. The Rev. H. R. Wilkinson said the head had been in his family for three generations and in that time had never been previously exhibited in public. The tradition was that the skull had been blown off in Westminster Hall and was picked up by a sentry, who had it, and only confessed on his deathbed to his wife that he had it in his keeping. It passed into the possession of the Cambridgeshire family of Russell, and came to Sam Russell, a needy actor. Then it was sold to Cox, the proprietor of the museum in Spring Gardens, and was transferred by him to three persons, who exhibited it in Bond Street. Next it came into the hands of the Rev. Mr. Wilkinson's grandfather.

Sir Henry Howerth said that the evidence seemed to make it extremely probable that the head shown was really that of the protector.

Prof. Boyd Dawkins did not think he heard of a more complete chain of circumstance.

Billion Disease Germs

Lost, Strayed or Stolen at New York.

New York, April 6.—A squad of New York policemen are out to-day searching for a billion disease germs, lost, strayed or stolen during the last 24 hours from the Research Laboratory of the Willard Parker Hospital on East 106th street. The germs had been injected in the course of an experiment into the bodies of four goats, which were then tied up to browse in the backyard of the laboratory. An hour or two later the goats disappeared. The hospital authorities fear that they have become captives in the hands of neighboring east side families. The use of their milk for drinking or cooking will be certain to result in a serious epidemic.

One of the goats, according to the police statement, is loaded with smallpox germs, another is inoculated with diphtheria, a third, carries millions of the things that make scarlet fever, while the fourth is loaded with whooping cough.

Anxiety Felt for These Explorers.

NEW YORK, April 3.—Somewhere up in the Arctic regions, thousands of miles from civilization, are the two chief members of the Stefansson-Andersen expedition, which left New York about three years ago on a tour of exploration and scientific research in the frozen North. Nothing has been heard from Stefansson for nearly a year and officials at the American Museum of Natural History which sent out the expedition in cooperation with the geographical survey of the Canadian Government, are beginning to feel some anxiety. The museum has decided to discontinue the work of exploration in the Arctic regions, and word has been already forwarded to this effect to Stefansson and Andersen.
