GEORGE STEPHENSON born 1781.
Invented a locomotive engine and in
1825 won his first great triumph by
putting an engine on the line that
was able to draw a train of 35 cars,
laden with goods and passengers
at the rate of twelve miles an
hour.

CHARLES DICKENS died 1870,
aged 58. The most popular novelist
of the 19th century, who from very
humble beginnings worked himself
up by sheer genius to the highest
position in the world of letters. He
was buried in Westminster Abbey.

SIR WALTER BESANT died 1901,
aged 65. A prolific author and novel-
ist. His best known works are "All
sorts and conditions of men," "Doro-
thy Foster."

SIR GEORGE NEWNES died 1910,
aged 59. The well known publisher,
founder of "The Tit-Bits," "Strand Maga-
zine" and several other monthlies.
There is no substitute for thorough
going, ardent, and sincere earnest-
ness.

Forest Fire.

Yesterday afternoon a fierce forest
fire raged between the Torbay and
Long Bay Roads, about three or four
miles from the city. There were no
residences or farming property close
by and the fire brigades in the city
did not visit the scene. The smoke
could be seen a long distance from
the blaze. Several towns people
drove countrywards to see what was
going on. The nearest property was
that of Truckman Maundier. The fire
began to exhaust itself shortly be-
fore tea hour and as darkness set
in was insignificant. The origin of
the fire, which at first threatened to
be serious, is unknown, though there
is a strong theory that troutling par-
ties were the cause of it.

LOCAL MANAGER BACK.—Mr. J.
S. Mann, Manager of the local branch
of Bowring Bros. Ltd., accompanied
by his wife, arrived last evening by
the Stephano, having spent an en-
joyable holiday. They visited Amer-
ican and Canadian cities.

Schr. Senator Gardner Has Stern Blown Away

TWO MEN INJURED; ONE BADLY.

Special to Evening Telegram.
ST. PIERRE, Mich., June 8.
The American schooner Senator
Gardner had her stern blown away by
an explosion of a twenty-pound tin
of powder, on the Grand Banks the
6th June. All the crew picked up
and landed here to-day from a New-
foundland fishing schooner, Hyale,
captain. She had two men slightly
and one badly injured.

Stephano Renovated.

Since her last visit here the S. S.
Stephano was on dry dock at New
York and was renovated from stem
to stern and is now in first class con-
dition for the summer service. Par-
ticular attention was given her cab-
in, ball and staterooms which were
elaborately done up to please the
most fastidious. On her next trip
coming this way the Stephano will
call at Charlottetown for a part load
of produce.

Committed for Trial.

The preliminary hearing in the
case in connection with the shooting
and killing of the boy Edward
Spears, as alluded to in yesterday's
Telegram, was held yesterday after-
noon in the private offices of the
Judges of the Magistrate's Court. The
affair occurred exactly three weeks
ago. Dewey Day, aged 15 years, who
has been on remand ever since was
present. The evidence of Dr. Ren-
dell, Dr. Knight, Mr. Noseworthy and
four boys named Sawyer, Murphy,
Noseworthy, Sparks, Detective Byrne
and Head Constable Sparrow was
taken. Mr. C. H. Hutchings, K.C.,
acted for the Crown, and Mr. Hig-
gins for the defence. The accused
was committed for trial to the Su-
preme Court.

AMERICAN ITALIAN RESERVISTS.

New York, June 2.—Between 600
and 700 reservists, the first extensive
shipment since Italy's declaration of
war, sailed for Naples to-day on the
steamer Principe di Udine, to enlist
for service. The men were a hardy
looking lot, and their enthusiasm for
their country and their mission was
apparently whole-hearted.

Stephano Arrives

With Record Cargo and Large Pas-
senger List.

The Red Cross Liner Stephano,
Capt. Smith, reached port last even-
ing from New York via Halifax. From
the latter port dense fog was met
practically the whole way and when
in the vicinity of Cape Race skilful
navigation had to be exercised to
avoid contact with icebergs, which
were numerous there. She brought
the largest cargo on record, being
filled in every available space on
deck, about 20 packages of mail mat-
ter and the following passengers in
saloon:—

From New York.—Mr. and Mrs. R.
G. Winter, nurse and child, Rev. W.
H. Anthony, Miss P. Good, Mrs. G.
E. Behrens and child, L. F. Fallon,
Mr. and Mrs. H. Simpson, Miss B.
Kolp, Miss E. Anderson, Mr. and
Mrs. W. B. Selden, Miss M. Lineham,
H. Friedman, Misses M. Lineham, H.
Smith and M. Strong, F. M. Gilley, Dr.
C. Curtis, Miss M. Parker, Miss L.
Barker, Miss C. Fox, 17 second cabin.
From Halifax.—Mr. and Mrs. E.
Cooper, Miss E. Taft, R. H. MacDon-
ald, A. Dunn, R. Dominguey, Mr. and
Mrs. J. A. Shortall and child, E. A.
Bell, Rev. P. J. Hennessey, M. H.
Findlater, W. H. Rowser, C. J. Wil-
liams, Mr. and Mrs. J. S. Munn and
maid and 3 second cabin.

Those who came on the ship are de-
lighted with the weather we are hav-
ing here, comparing favourably, if
not superior, to what they are having
in New York. The tourist traffic will
begin next trip, several people hav-
ing booked passages already to come
this way and we are informed that
the war will not deter the usual num-
ber of American visitors from com-
ing here this summer. Those who
came by the steamer say that busi-
ness is flourishing both in the Ameri-
can and Canadian towns just now.

Ever Ready Hot Water, Night and Day.

HOT WATER FOR THE HOUSE-
HOLD.

When "Spring cleaning days" en-
gross the busy housewife, then, the
convenience of an unlimited supply
of hot water on the upper floors is
brought home to her with special
force.

But at all times—apart from con-
venience—a gas water-heater makes
an irresistible appeal to the house-
wife from the point of view of deal-
ing with the domestic problem.
Latter-day domestics are difficult
to keep unless due consideration is
shown by saving them unnecessary
drudgery—and in the category of un-
necessary drudgery may be included
the toil of carrying hot water or coal
upstairs, the cleaning of grates and
the removal of dirt and ashes.

The gas water-heater renders such
labour superfluous—may it be said,
because it only heats the water actu-
ally required; and labour-saving, be-
cause there are no coals to carry, no
flues to clean, no ashes or dirt to
remove.

The master of the house has hot
shaving water and a hot bath when-
ever he wishes without delay.

The bath ready for baby, when
baby is ready for the bath should be
an adage of every housewife—who
should also keep in mind that any
trouble saved to the nurse makes for
a well-ordered, contented household.

Gas Water-Heaters, whether of the
Instantaneous or Circular type, offer
the convenience of available hot wa-
ter "upstairs, downstairs, and in my
lady's chamber,"—without any labour
at all—Independently of the state of
the kitchen fire.

The cost is reasonable.
FOR THE BATHROOM.
An uncertain supply of hot water
in the bathroom is a frequent cause
of annoyance.

Hot water can only be secured,
usually, by getting the cook to act as
stoker, but at what a cost!
Think of the coal that is wasted—
the fatigue of coal-carrying—the af-
ter labour of grate cleaning—and the
discomfort of a hot kitchen in warm
weather!

A Gas Water-Heater is economical

THE EAST WIND.

"The wind is in
the east," the
chronic croaker
sighed; "t h a t
zephyr is a beast.
It fills with pain
my hide. When
ever east winds
whirl across the
dismal sea, eight
kinds of rheuma-
tism begin to tor-
ture me." So he
sits down to
groan, and calls for
his old shin-bone with liniment
and grease. When people thus are
sure a certain wind will bring some
ill beyond a cure, their guess comes
true, by Jingo. For superstition makes
of grief a vast amount, it brings more
pains and aches than you and I
could count. Now let the croaker
greet the east wind with a grin, and
say, "You can't be beat—the prize
you'll surely win! You cannot bring
disease, or make my hock-joints sick;
no blamed old tin horn breeze can
play that sort of trick!" The wind
will whoop and sizz, and try to fill his
farm with jumping rheumatism, and
then give up the game. If you in-
vite disease, and say it's sure to
come, the germs will strive to please,
and knock you out of plumb. But if
defiance bold you hand the microbe
mob, the feet of germs grow cold,
and they throw up the job.

Inspection, Visit.

Rev. Bro. Hennessey, a Superior of
the Order of Christian Brothers in
Dublin, arrived here last evening by
the S. S. Stephano. During his so-
journ here, which will probably be a
couple of months, he will inspect the
work of the Christian Brothers at St.
Bon's College and St. Patrick's Hall
and Holy Cross Schools. Though it
is about 15 years since he was last
here from the Green Isle, Rev. Mr.
Hennessey is well known in St.
John's, and is now renewing old ac-
quaintances with those whom he met
on his former visit. We wish the rev.
gentleman a pleasant stay in the city.

In Milady's Boudoir.

By GWEN SEARS.
THAT SUMMER COLD.

Doesn't it make you positively
wretched and unbecomingly to have a
cold in summer? The odd part of it
is too that the more you are afraid
of draughts and the elements, the
harder they seem to pursue you and
the more colds you catch.

An old remedy for a cold in the
head, and a very good one too, is
plenty of drinking water. Drink at
least two quarts daily. Drink it
slowly and see that the drinks are at
least an half hour apart. Water
should never be taken with meals. It
should be taken an half hour before
or after.

A glass of water upon arising
should be an invariable rule. This
cleans the stomach of any mucus that
has collected overnight. Hot water
the first thing in the morning is bet-
ter than cold. Iced drinks, however,
are always a shock to the stomach.

Another old fashioned way of
warding off a cold is to take ten or
fifteen drops of nitro in about a
quarter of a glass of water. When a
cough develops suddenly and there
are no cough drops to be had, the
sugar bowl is sort of a "first aid to
the injured." Sugar will usually
stop the coughing for a short time.
Take care of the innocent appearing
coughs and colds because it is some-
times their very innocence that puts
us off our guard until more serious
conditions have arisen.

C.C.C. Dance.

The annual dance of the C. C. C.
took place last night at the T. A.
Armoury and was very successful.
Upwards of 250 people attended and
all enjoyed themselves to the fullest.
The music was excellently furnished
by the C. C. C. Band under Lieut.
Bulley. The affair terminated at 3
o'clock this morning.
