**Our New Idea!**

Having shown where we excel in the Bedding Line, we wish to add one word more on **Our New Idea Bedstead**. Having installed machinery the past month for the punching, boring, &c., of our Beds, we can now fit our Oxford or Copper Spring to any Bed as required. This does away with the wood altogether, makes it **absolutely vermin proof**, and makes a Bed superior in every way to the old, as it is made into the Bed and can be removed and packed very closely—a great convenience when removing. We also have the **Combination Lath and Spring Beds**, the only thing of its kind in the country.

**Another Special Value To-day.**

This Table is made of Hardwood throughout, not a bit of softwood in same. Very heavy massive legs, extends 6 to 8 ft. Made specially for us. Worth \$12 to \$15, now offered for the first time for

**\$9.95.**

A real bargain. Quantity limited. Advise ordering at once, these snaps don't last long. Order now.

**The 25th in France.**

Word was received in Halifax last evening announcing the safe arrival in France of the 25th Nova Scotian Battalion, which left Halifax last Spring for Shorncliffe where they completed their drill. The transport which conveyed the 25th from this port, the *Caledonia*, also took the 26th New Brunswick Battalion.

Alan Noseworthy, Alex. Ledingham and Albert Duffit, are in the machine gun section of this battalion. There are also a large number of other Newfoundlanders in the same battalion.

**Comforts For Our Soldiers.**

Yesterday afternoon the workrooms at Government House re-opened, there being present many members of the Women's Patriotic Association.

A communication from the Authorities in London was read by Mrs. J. Harvey, setting forth the need for mittens, double-end mufflers and cases for rifles, in addition to the socks and shirts, ordinarily sent forward. By the next mail from the Old Country the designs for the extra articles will arrive. Material to carry on the season's work is expected to reach here soon. The Cutting Committee have shown much

activity of late and have cut 3,000 yards of flannel, which will be made up into shirts as quickly as possible. It was decided that the working parties be held at Government House each Monday, Tuesday, Thursday and Friday, and yesterday was the first. Now that the work of providing comforts for all those who are fighting in the cause of Right is in full swing again, it is hoped that increased financial aid will be afforded.

**DR. DeVAN'S FEMALE PILLS** Reliable medicine for all Female Complaints. 25c a box or three for \$1.00, at drug stores. Mailed to you on receipt of price. *The Scots' (Dr.) Co., St. Catharines, Ontario.*

**413th Day of the War**

**Latest From the Front.**

**Messages Received Previous to 9 A.M.**

**OFFICIAL.**  
**LONDON, Sept. 20.**  
 The Governor, Newfoundland: General French reports no change in mining and artillery activity. The French reports are similar. German reports announce the capture of Vilna. Russian reports enemy advanced in the Vilna region, and further successes near Rovno and in Galicia, where numerous prisoners have been captured.

**BONAN LAW.**

**ST. PIERRE BULLETIN.**

**PARIS, via St. Pierre, Sept. 20.**  
 Official. The British fleet having bombarded the German organizations of the Belgian coast, our heavy artillery in Nieuport district co-operating with our Allies fleet, cannonaded the German shore batteries which were shelling the warships. On the Artois front the enemy's artillery fire slackened. Our batteries kept up their bombardment on the German batteries. There was cannonading and bomb struggles in the Roye district. On the canal running from the Aisne to the Marne we maintained our bombardment at Stagnieul in spite of three hostile attacks. In Champagne the enemy replied faintly to our bombardment, but shell- ed fiercely the district situated between the Aisne and Argonne, also on the Meuse heights. In Lorraine and Vosges our shelling appears to have been particularly efficient. During the day we blew up four German munition depots. Near St. Mihiel a German aeroplane was attacked by the quick fire of our aeroplanes and our batteries, and dropped in the German lines.

**Belgian Bulletin.**—A quiet night. The morning was characterized by a great activity on the part of the enemy's artillery especially directed against Groot Oostkerke and Reninghe. During the evening was intermittent firing on several points of our front and rather heavy bombardment of Pypegand. Our artillery replied most vigorously and dispersed the German sappers working in the direction of St. Hoore and east of Knoeloc fort.

**FRENCH OFFICIAL.**

**PARIS, Sept. 20.**  
 An official statement given out by the French War Office this afternoon: In the Artois district our artillery last night delivered violent bombardment against works of the enemy and interfered with their provision trains in the environs of Arras and on the front along the Orinchon River, where cannonading was accompanied by a spirited rifle fire and outbursts from the machine guns. In the Champagne district our artillery replied to a bombardment of our positions to the north of Camp de Chalons and checked the fire of the German heavy artillery. To the north of Perth a depot of munitions within the enemy's lines was blown up. Between the Aisne and Argonne district the artillery of the enemy maintained its activity during all that night. This fire was answered with energy. In Lorraine our batteries continued the destructive fire upon the works of the enemy and brought into their field certain routes by which the enemy has been securing provisions. In the vicinity of Ban de Sapt French field artillery dispersed a detachment of German prisoners.

**SITUATION SERIOUS IN THE EAST.**

**LONDON, Sept. 20.**  
 The Russian army, menaced since the fall of Vilna by a German encircling movement, is estimated variously at 250,000 to 500,000. The conditions under which the Russians are attempting to extricate themselves furnishes a striking parallel to those which followed the capture of Warsaw. They may precipitate one of the greatest, if not the greatest, battles which has been fought on the eastern front. Although no official confirmation has been received in London from Petrograd, this morning of the fall of Vilna, the British press has accepted the German claim.

**SIGNIFICANT CHANGE OF SPIRIT.**

**LONDON, Sept. 20.**  
 The Daily Telegraph says that, of late there is apparent, in connection with submarine crews, which but lately left Germany, a significant change of spirit. It almost appears for the first time since the beginning of the war that the only active section of the German navy has lost faith. It may be that the grim succession of failures to report has, at length, had its inevitable effect in sapping the nerves of the men entrusted with "U-boats" on hopeless missions. Most significant evidence of dry rot having set in among the German sailors has been reported this week. The details may not be given, but it is sufficient that the evidence is of a nature not hitherto experienced in the war, ab-

**ject in its chief feature and astonishing in the hopelessness of the outlook for return.**

**THE SUPER-DREADNOUGHT BARHAM.**

**NEW YORK, Sept. 20.**  
 The super-dreadnought *Barham*, of the British Navy, whose keel was laid in 1913, a sister ship of the *Queen Elizabeth* and the *Warspite*, the most powerful battleship afloat, is about ready to be commissioned, according to word brought to New York to-day by the passengers of the steamer *Orduna*. The *Barham* is now fitting out at Liverpool, and probably will be in service within six weeks.

**THE DUMBA CASE.**

**WASHINGTON, Sept. 20.**  
 Whatever Government action toward James J. Archibald, the American correspondent involved in the case of Dr. Dumba, the Austrian Ambassador, it will not be taken for several days, not until Archibald has had an opportunity to make explanations to officials here. No further word of the Austrian Government's intention to recall Dumba has been received at the State Department to-day. The only action that the Department will take on Dumba's letter published yesterday, will be to formally acknowledge its receipt.

**RESCUED CREW ON THEIR WAY TO NEW YORK.**

**NEW YORK, Sept. 20.**  
 The Anchor Line steamer *Tuscania* is on her way to New York to-day, bringing the passengers and crew of the Greek steamer *Athina*, which was on fire and abandoned at sea, according to a wireless message received from Captain McLean of the *Tuscania*. The *Athina* left New York last Thursday for Piraeus, Greece, carrying a few passengers, a large general cargo and many bags of mail. The *Tuscania*'s latest message came from a point 428 miles from the Ambrose Channel Lightship, and was dated at noon. The passengers aboard number 341 and the crew 68. On the *Rumania*, Piraeus and 61 other survivors. Everyone was saved. The *Tuscania* sailed from Glasgow on Sunday week, and is due here late to-day, but is expected to arrive before tomorrow.

**BISURATED MAGNESIA**

For sour acid stomachs, gas and fermentation of food. A teaspoonful of a glass of hot water usually gives INSTANT RELIEF. Sold by all druggists in either powder or tablet form at 75 cents per bottle.

**S. S. Conference.**

Avalon Deacons Sunday School Teachers held their fifth biennial Conference last night at the Synod Hall, Rev. Canon Colley, Rural Dean, presided. There were present about 150 teachers, representing most of the Parishes and Missions of the Deanery of Avalon. A large number of delegates assembled at the Orphanage in the afternoon. From there they visited Government House and viewed the work that is being done on behalf of our soldiers and sailors. Then they were entertained to afternoon tea at the Orphanage and were given an opportunity of witnessing the happy little boy and girl inmates there in whose welfare the Association is keenly interested. At 8 p.m. at the C. of E. Cathedral an address was given to the teachers by the Lord Bishop of Newfoundland on the history of other matters in relation to the Cathedral. Evenson and a short organ recital followed. At the Synod Hall last night two interesting papers were read by Rev. Dr. Jones on "A Graded School in Action," and by Miss Dawson on "Some Suggestions for an Educative Method for Junior School." A discussion likely to promote interest and enthusiasm in the work of Sunday Schools and in which His Lordship the Bishop, Revs. Canon Smith, A. J. C. Stamp and Messrs. L. Colley, H. Y. Mott and A. Barnes took part.

Refreshments were then served and an enjoyable hour spent. At 7 o'clock this morning the Conference closed with a celebration of Holy Communion and an address by the Lord Bishop.

**Would Not Use Any Other!**

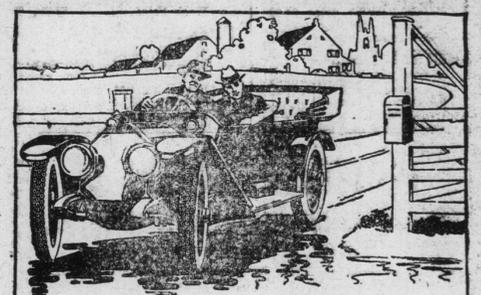

Messrs. DEARBORN & CO.,  
 St. John, N. E.  
 Dear Sirs,—I have used your Baking Powder, and I think it is excellent. Would not use any other kind so long as I can get Dearborn's.
