**Another Recruiting Meeting.**

Lieut. E. Churchill and Pte. Rev. W. E. Stenlake were the speakers at last night's recruiting meeting, which took place in the British Hall. Lieut. Churchill in addressing the meeting made reference to the splendid work of the Regiment in Gallipoli, France, and in a strong, clear voice made an earnest appeal to the young men present to come forward and replace the brave countrymen who have been killed and wounded. The soldier Parson gave a brief account of his experiences since leaving his little Methodist mission in the north to come on here to enlist till he returned home after being discharged as medically unfit. Leaving old St. John's on H. M. Troopship Florizel and under the watchful eye of the British Navy they in company with over 30,000 Canadians reached England. The great review at Aldershot when "Ours" was paid a high tribute by the late Earl Kitchener, the maker of the Great British Army out of a division less in number than Canada's contribution of soldiers to the Empire. In describing the terrible conditions under which our men fought at Gallipoli he made special mention to the splendid work of Major Carty and other officers many of whom have since sealed their devotion to their God and country with their young lives.

To those who say they would be as well off under German rule British bullets were too good for them. In conclusion he hoped that the young men would come forward immediately and enlist. The C. L. B. Band, which assisted in the parade, rendered several patriotic airs at intervals and also accompanied Pte. Uddle in the singing of Rule Britannia. Mr. Geo. J. Adams, who acted as chairman, proposed a vote of thanks to the speakers, band, etc., which was carried by acclamation. He announced that Mr. T. J. Edens would preside over to-night's meeting and that the speakers would be Serjeant Nugent and Lt.-Corpl. Parsons, both Gallipoli veterans.

The following young men came forward and offered their services for King and Country:—L. Nicholas, Hr. Grace; F. Perry, Trepassay; L. Nosworthy, St. John's; J. Neider, St. John's; S. Brien, St. John's; L. Caines, St. John's; W. Brennan, St. John's; A. Nurse, Champney's, T.B.

**Fined \$100**

For Selling Smuggled Cigarettes.

A Water Street shopkeeper was summoned to court to-day, charged with defrauding the Customs revenue by selling Fatema cigarettes, which he knew were smuggled here from New York. The accused pleaded guilty and was fined \$100 and costs by Judge Morris. Mr. C. E. Hunt, B.L. acted for the Customs and Mr. E. L. Carter appeared for the accused. During the hearing of the case Inspector O'Reilly exonerated a collector for a coal firm, who had been blamed for informing on the accused. Continuing, the Inspector intimated that several days after the Customs first heard that the sale of the smuggled cigarettes was going on, this man was called in to make a statement and had to answer any question he was asked under a heavy fine. It was also stated in evidence that the duty on one thousand cigarettes brought here from New York is \$10.31.

**War Crosses.**

First Awarded in 1757. War crosses are far older than war medals, the latter are, in fact, a comparatively modern innovation. The oldest of these decorations is the Austrian Cross of Gold, and curious enough it bears a similar inscription (but in Latin) to our Victoria Cross. The first Gold Cross was awarded by the Empress Maria Theresa in 1757.

The next oldest European battle cross is the Russian Cross of St. George, which is of gold with a fine medallion of St. George slaying the dragon. It was founded by the Empress Catherine II. in 1769. The French Cross of the Legion of Honour was instituted by Napoleon in 1802, at the time when he was First Consul.

of shoes-and-ships -and sealing wax-of cabbages-&-k. DEPRECIATION. Depreciation is something which happens to an automobile after it has been driven around the block by a new owner. Nobody has ever advanced one sound reason why a \$1,500 automobile should depreciate so much faster than a three-year-old colt or a milch cow, but the fact stares us in the check-book just the same. You can go out and buy a healthy, low-spirited mule and he will not depreciate to any extent until he has removed three-fourth of the owner's immediate family from this mundane sphere with both hind feet. The farm horse never begins to show any signs of wear and tear until he is twenty-four years of age, when he is spruced up and sold to some neighbor whose eyes are out on the bins. In view of these solemn facts, why is it that the average six-cylinder touring car, with a slanting windshield and a club-footed carburetor, begins to go into a decline as soon
