

SPANISH INFLUENZA.

Instructions to Outport Magistrates.

Requests are constantly being sent to the Board of Health by Outport Magistrates for instructions in dealing with the influenza epidemic. The following points are to be noted:—

1. The disease is highly contagious.
 2. It is spread very largely by contact one with another.
 3. It is advisable to prohibit any unnecessary gathering of people about stores, street corners, etc.
 4. Close schools, churches, theatres, etc., if there is any indication of spread of disease.
 5. Avoid a panic, but take this thing seriously and co-operate with the doctors, following strictly the advice given.
 6. Good ventilation is very important—therefore admit sunlight and fresh air as much as possible.
 7. Do not allow the patient to spit, and when coughing cover the mouth.
 8. Never neglect the precaution of washing the hands before eating or after contact with a sick person.
- Quarantine is difficult to establish with any degree of success and the presence of the police in an attempt to enforce quarantine would create more panic.
