

MONTREAL PUBLISHER TELLS WORLD WORK OF UNION JACK

London White, of Montreal Gazette, First Marvells at Growth of Trip Around World on New C. P. R. Liner.

BRITISH FLAG AHEAD IN ALL COUNTRIES

London, June 13.—Entwined with Rail-road Flag, Dominates Trade Routes of the Orient; Editor Starts for East Today.

LONDON WHITE, president of The Montreal Gazette company, spent yesterday in Calgary making the new C.P.R. ocean liner, the Empress of India, on which he has just completed a tour of the world.

It is eight years since I have been in the city, and the transition of the city from a village with four streets to a metropolis is just starting its growth.

Calgary is just starting its growth, and there is no real development, and there is no real growth, and there is no real development, and there is no real growth.

Among the people who have been in the city, and the transition of the city from a village with four streets to a metropolis is just starting its growth.

Calgary is just starting its growth, and there is no real development, and there is no real growth, and there is no real development, and there is no real growth.

CADET CAMP IS TO HAVE A SAVINGS BANK

Idea is Suggested by Jack Sharpe, Secretary of the Y. M. C. A. Boys' Dept.

The Cadet camp is to have a savings bank. The idea comes from Secretary Jack Sharpe of the Y.M.C.A. boys' department who will represent the Western Territorial committee in looking after the arrangements of the Y.M.C.A. at the Calgary camp.

To overcome the confusion caused by the boys losing their money while running around and to help those who blow in their state at the candy store before the camp is in full swing, the bank will be operated.

Deposits can be made by the youthful soldiers when they arrive at the camp or their spending money can be forwarded to the Y.M.C.A. by the parents and will be given out as directed.

The scheme is a good one and should work out to advantage. The Y.M.C.A. will be a prominent factor in the Alberta camp this year.

As a result of the success of the work conducted at some of the Eastern Cadet camps last year, when all the recreational activities were placed under their jurisdiction.

The refreshment booth will be under their direction and thorough organization is being planned to include the officers of the various units to conduct the athletic activities on a basis that will keep the interest of the youngsters alive all the time and make the camp one of the best vacations of the year.

The boys' work secretaries from Edmonton and Lethbridge will be at the camp to promote the activities in conjunction with Mr. Sharpe.

Canadian Foresters Elect. London, Ont., June 13.—The C. O. F. completed their annual meeting last night with the election of officers, as follows: H. C. R. J. A. Steward, Perth; vice H. C. R. J. A. Steward, Perth; secretary H. C. R. J. A. Steward, Perth; treasurer H. C. R. J. A. Steward, Perth.

EXPORTS FOR MONTH OF MAY LARGEST ON RECORD

Wholesale Trade at Some Points Reflects Retarding Effect

New York, June 13.—Dispatches received by Dun's Review from branch offices of R. G. Dun & Co. in leading trade centers of Canada are more conservative, wholesale trade at some points reflecting the retarding effect of the backward season and the stringency of money.

Montreal reports little change in wholesale trade conditions. Spring sales of the large dry goods houses are well up to last year's but sorting is quiet and prospects for fall are rather unsatisfactory.

The textile mills appear to be catching up with orders and manufacturers of shoes are not very busy; demand for leather is somewhat slow, although values remain firm.

The movement of groceries, however, is fair and grain men say that exports for May were the largest on record.

Wholesale trade at Toronto is generally quiet but there is a moderate amount of business in most lines and prices of staple merchandise are very firm. There is a scarcity of Ontario wheat and flour is firmer, while the wool market shows considerable strength, with all offerings freely taken.

Both wholesale and retail business in Hamilton remained normal, and with the manufacturing concerns busy, labor is well employed.

In the far west and northwest conditions on the whole are satisfactory and the situation generally is considered sound.

Winning reports that trade in sea-sonable wearing apparel is well above that of a year ago and there is a large increase in building and general contract work.

Business is now being conducted close to a cash basis and the situation rests on a sound foundation.

Jobs at Saskatoon say that trade averages up to that of previous years with an encouraging outlook for the future.

Seasonable weather at Regina benefits crops and merchants were sanguine. Building activity is very pronounced, and there is a brisk demand for all kinds of materials.

Seasonable weather at Regina benefits crops and merchants were sanguine. Building activity is very pronounced, and there is a brisk demand for all kinds of materials.
