mate of \$143,987. In hospitals and charities the estimate had been very close at \$120,528.

On public buildings there had been an expenditure of \$518,407 against an estimated expenditure of \$612,389. The amount expended, however, was the largest in any year since Coniederation. It included \$260,455 for new asylum accommodation, viz., \$172,052 for the cottages at Mimico, \$57,596 for the Idiot Asylum at Orillia, and \$30,797 on the London Asylum. Complaints had been made in some quarters that the Government of Ontario had been remiss in its duty in providing accommodation for the insane of the Province, "but," said Mr. Ross, "whatever may be the short comings of the Mowat Administration, this at least cannot be laid against it. Mr. Ross said he would like honorable gentlement to look with same spectacles on Dominion accounts as they did on Ontario accounts, and they would see that in spite of the flourish of trumpets they had recently heard of a surplus of \$1,800,000 in this Dominion Treasury last year the public accounts showed they had borrowed money and increased their debt by over \$2,000,000. The Ontario Government had provided from its ordinary receipts for all necessary expenditure to carry on the services of the Government and had carried \$247,982 in cash railway certificates, and had at the close of the year in the banks cash to the amount of \$21,261, or only \$111,683 less than the amount there last year. He thought the position was one the House might justly congratulate itself upon. (Applause.)

of economy as a direct evidence against any charge of extravagance.

After Mr. Ross, in conclusion, said: I think I may fairly claim that the statement I have been privileged to present to the House is one eminently satisfactory. The only thing that may cast a shadow over the otherwise gratifying exhibit is that Ontario's satisfactory financial position when contrasted with that of other Provinces may now, as in the past, give rise to the belief in those other Provinces that Ontario, in financial arraengments have profited more by Confederation than they. Yet nothing could be more fallacious. Ontario's more satisfactory position, as has been frequently pointed out, is due, firstly, to the fact that the people of Ontario, under our comprehensive municipal system, have cheerfully borne a share of the burdens of self-government which the

Ontario, under our comprehensive municipal system, have cheerfully borne a share of the burdens of self-government which the people of other Provinces have thrown almost entirely upon the Provincial treasury; and, secondly, to the more careful and economical administration of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the close of her affairs, and I think that at the forward that the manual affairs to the Mowat Government that Government has administered the trust judiciously, economically and honestly.

Mr. H. E. Clarke spoke in reply, and claimed that the Government had left the House in blissful ignorance as to the real financial condition of the Province. He went on to say that the income is from \$2,000,000 to \$4,000,000 a year part of which is fixed and certain and part fluctuating, but the truth is, he said, that our expenditure exceeds income by from \$40,000 to \$400,000 per year. He fixed the total deficit in 1887 at \$1,933,862, but when he came to 1888 he admitted the receipts exceeded the expenditure, and so he reduced the deficit to \$1,882,689. The favorable state of affairs in 1888 he attributed to successful Crown land sales.

Hon. Charles Clarke replied to the member for Toronto.

Mr. Creighton followed, charging the Government with extravagance.

Mr. Waters defended the Government from the charges and exercise it is the text.

LEGISLATURE NOTES.

Hon. Messrs. Drury, Hardy and Gibson received in the library Thursday afternoon the largest deputation of those interested in farming that has waited on the Government for many years. They represented the 89 electorial districts agricultural societies of the Province and their mission was to ask the Government for an additional grant of \$20,000 for the exclusive use of their societies. The delegates from Middlesex were John McPherson, James Shibley and R. Tooley, M.P.P. Mr. Dawson, of Algoma, was the first to address the Ministers and was followed by a number of others, who showed how from various causes the societies have become crippled. Hon. Mr. Drury, in reply, said he was pleased the farmers are following in the footsteps of all others in the Province who want the Government's assistance. This is as it should be. He had hoped that in the discussion something would have been said by the speakers touching a proposition made to the Government, to the effect that they should make a grant to central associations. He also expected to hear an expression of opinion regarding the usefulness of township shows. The Minister of Agriculture went on then to say that the Government had not the control of the \$10,000 formerly given to the Provincial Exhibition. The Council of the Agricultural and Arts Association want \$6,000 this year, and the grant in connection with agriculture. The proposition of the deputation was a large one, and owing to the advanced state of the session, and that the estimates were prepared, he could not hold out any hope that anything would be done this year. Still he would place the representations made before his colleagues, when they would receive every consideration.

IMPORTANT! Remarkable Restoration to Health of Well Known Canadians whose Cases were Given up as incurable.

From the few of the hundreds of letters we have received from those who have been restored to health and strength by the use of that wonderful discovery, Paine's Celery Compound, we make a

few extracts. We hope that the thousands of Canadian men and women who are suffering from nervous and wasting diseases, will profit by these true and plain statements of facts. D. S. Davidson, of Montreal, suffered for years with nervous dyspepsia, pain in his back, and sleeplessness. He tried doctors without relief, was losing flesh rapidly, and had about given up heart when he

commenced the use of Paine's Celery Compound. "Now," he says, "I am a new man. I sleep well and my food does not hurt me." Mr. Jas. Johnson, 302 St. Charles Borromee Street, Montreal, was weak and nervous, had no appetite, and could not rest at night. His nerves were soothed

and strengthened by Paine's Celery Compound, and he soon became well and Annie Gourley, of River Beaudette, P. Q., found the Compound a certain cure

for weakness, and now feels as well as she ever did. A customer of Harrison Bros., drug-

gist, Hamilton, Ont., told them that he was entirely cured of nervous weakness by the use of two bottles of the Compound,

after everything else has failed.

The little child of Mrs. G. E. Meredith, 76 D'Arcy St., Toronto, was cured of St. Vitus' Dance by Paine's Celery Compound.
