FEEDS BRAIN WORKERS.

A Food Made Especially for Them.
A literary woman, Mrs. J. C. Roberts, 133 Holmes street, Dallas, Tex., has discovered that a properly selected brain food is of great benefit to any brain worker. She says: "My duties as journalist require me to write all day, particularly in the winter, but heretofore, after luncheon, no matter how light I made it, I found myself incapacitated for work for an hour or two, for my brain would not respond to the demand."

"I saw an advertisement of Grape-Nuts for brain workers and determined to give it a trial. I am charmed with the result, and am now in perfect health. I use Grape-Nuts for luncheon, and never suffer any inconvenience whatever, returning to my work at once, feeling as bright as when I left it. I know from experience that this preparation is invaluable for brain workers, who are apt to find that that period of time given up to digestion is of almost total eclipse of mental power."

In this day and age of concentrated effort, it is wise for brain workers to use a food especially adapted for rebuilding the brain and nerve centers. Grape-Nuts food was invented by an expert especially for that purpose. Knowledge of the food elements contained in the grains and how to prepare these elements so as to be quickly absorbed by the body, and used directly to replenish the lost phosphate of potash (which is exhausted by mental work) have brought about the result. The proof can be had by any brain worker who will take the trouble to use Grape-Nuts for a few days.

BIG INCREASE IS WANTED

The Value of the Port Stanley Road as Set by the Board.

Would Not Entertain the L. E. and D. R. R. Company's Offer.

The Grand Trunk Interested—General Manager Hays Wishes to Know Things—Wants a Chance to Bid for the Line—An Important Letter.

The following resolution sums up the work of the London and Port Stanley Railway board, which met last night to consider the L. E. and D. R. R. Company's verbal offer of \$14,000 for the remainder of their term and \$15,000 for the extended period.

The proposition of the management of the Lake Erie and Detroit River Railroad Company, namely, \$14,000 per year for the present term of lease and \$15,000 per year for the term of the proposed extension, without payment of interest on bridge account or percentage of earnings over \$50,000 a year, is not acceptable to this board, and this board is willing to negotiate an extension of the lease at a rental of \$20,000 for the remainder of the present lease, and \$25,000 a year during the term of the extension, that is, for sixteen years from the expiration of the present lease.

The division on the motion, which was made by Ald. Dreaney, seconded by Ald. Gerry, was:

Yeas—Ald. Dreaney, Gerry, Jenkins and Jolly.

Nays—Ald. Douglass, Pritchard and Garratt.

Ald. Garratt was not opposed to the substance of the resolution, but he desired a provision in the motion requiring any agreement proposed to be ratified by the city council and citizens.

Ald. Pritchard moved, seconded by Ald. Douglass, that, as the L. E. and D. R. R. Company had made no proposition in writing, the board should refuse to consider the matter of extension until it be submitted in writing. The motion was voted down.
Ald. Douglass moved, seconded by Ald. Pritchard, that the rental be \$25,000 per year for the remainder of the present lease, and also for the term of the proposed extension, with interest and percentage charges as at present. Lost.

Ald. Pritchard tried to turn the tide of action once more by moving that the board entertain no proposition for the extension of the lease, but his amendment was voted down.
President Rumball advocated the payment of a lump sum instead of the payment of percentages of earnings. He mentioned, also, that in City Solicitor Meredith's opinion, any agreement for the extension of the lease must be ratified by the city council, as the representatives of the mortgagees of the road.

GRAND TRUNK INTERESTED.
President Rumball had received a letter from General Manager Hays, of the Grand Trunk Railway, asking for particulars concerning the extension of the lease. Mr. Rumball, in reply, stated that no agreement would be closed without the stockholders being first made acquainted with the same—the Grand Trunk being stockholders to the extent of 2,500 shares. He then received the following letter from Manager Hays:

"On Road, Oct. 4, 1900.

"His Worship F. G. Rumball, Mayor, London, Ont.:

"Dear Sir—I am obliged for your favor of Oct. 1, relative to the London and Port Stanley lease, and understand that you will advise us before any action is taken looking toward an extension of the lease. You are correct in your assumption that I attach more value to the line than my predecessors, and on behalf of the Grand Trunk Railway I should like,

with others, an opportunity of bidding for the lease of the line where the present lease has expired. I do not think any extension should be granted on any other terms than the leaving of the matter open to all bidders; this will certainly be better for the interests of the city of London. In view of our holding of stock, I should like to have a director on the London and Port Stanley board. Kindly advise me if there are any vacancies on the board, and if not, when the next election of directors takes place. I thank you for the expression of friendliness in the part of the citizens of London towards the Grand Trunk Railway. We are doing what we can in the way of increased and better service to warrant such appreciation.

"Yours truly,
CHAS. M. HAYS,
"General Manager."

There are no vacancies on the board.

Amusements.

EDWARD WARREN.

Mr. Edward Warren, who appears in the quaint character of Aunt Melinda Jane Boggs, of Juniperville, Vermont, in the four-act pastoral comedy-drama, "Cowslip Farm," is an artist well and favorably known throughout the country. His actual stage experience covers more than twenty years, beginning his career as a humble member of a well-known western stock company, and his part in "Cowslip Farm" is a distinct revelation. He portrays to the life a New England spinster, a line of work made famous by Mr. Nell Burgess. The costuming of the part is perfect in every detail, and his acting has created an impression which is bound to last.

FAT AND LEAN

That is, babies: fat, they are happy and safe; lean, they are neither happy nor safe.

Apart from being entirely healthy or not quite well, a fat one has much reserve of vital strength to resist any sudden attack, while the lean one has little or no reserve.

The way to be fat and well is Scott's emulsion of cod-liver oil. A little: only a little. Not any, if healthy and plump already; "let well enough alone."

We'll send you a little to try if you like.
