PROSECUTOR AT KIEVE IS GIVEN HIGH HONOR

M. Chaplinski Rewarded for Prosecution of Mendel Beiliss for Ritual Murder.

[Canadian Press.]

St. Petersburg, Jan. 14.—A great distinction was conferred today on M. Chaplinski, the public prosecutor of Kieve, who was so prominently associated with the prosecution in the sensational trial of the Hebrew, Mendel Beiliss, on the charge of "ritual murder," for which he was acquitted on Nov. 10, 1913. In the light of honors used on the occasion of the Russian new year, M. Chaplinski was created a Knight of the Order of St. Stanislas of the First Class, and appointed a senator and privy councillor.

GREAT FUTURE FOR DAIRYING ALL OVER WESTERN ONTARIO

Prospects Are For a Record Demand at Good Prices, Says President—Urges Testing of Cows and Weeding Out Poor Animals.

[Special to The Advertiser.]
Stratford, Jan. 14.—An optimistic view of the future of the dairying industry of Ontario and Canada, prospects for a strong demand in the future for all dairy products that the country can produce with the consequent good prices, and a few sound words of advice were presented to those who attended the forty-seventh annual convention of the Dairywomen's Association of Western Ontario, which opened here today, in the address of President S. E. Pacey, of Harrietsville, and an interesting report of the directors.

Note of Warning.
A warning note was struck against producers in certain sections abandoning the cheese factory or creamery at certain seasons of the year to dispose of their milk in other ways. The season is shortened by it, and the output curtailed. In self protection the cheese and butter manufacturers will be obliged to raise the prices.
A conservative estimate places the amount of tuberculosis among cattle and hogs at from 10 to 15 per cent.

A Wonderful Discovery

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, as soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, as soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delmonte, Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today, over three years after his cure of eczema, he has for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box, if you send this advertisement and a 1c stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Home-Grown Melons To Oust Southern

[Special to The Advertiser.]
Leamington, Jan. 14.—Fruit men all over this district are taking interest in an experiment that is now being conducted here, by which it is expected that home-grown muskmelons will be offered on the Canadian market before, or at any rate, as soon as the arrival of the Southern product next season.

Thirty thousand muskmelon plants have been placed under glass in the Leamington district, and a great yield is anticipated.

Thus far, the plants are being kept in a satisfactory condition.

REQUEST REFUGEE SOLDIERS RETURNED

Mexico Wants Her Soldiers Back—Left in Dire Straits, Fearing Massacre.

Without Ammunition and Burdened With Wives and Children They Fled to U. S.

[Canadian Press.]
Presidio, Texas, Jan. 14.—When informed today that the war department at Mexico City would request the United States to return to Mexico all the Mexican soldiers who were driven into this country by the rebels at Ojinaga, Mexico, General Salvador Mercado said:

"We are in the hands of the United States. It never was our purpose merely to retreat to this country for safety and then return to fight again as soon as we had been fed. I ordered our soldiers to cross the river on grounds of humanity. We had no ammunition with which to fight. A thousand women and children were with us. To have remained in Ojinaga would have meant massacre. What the United States will do with I don't know, but I shall be glad to conform to the wishes of my own Government, and my men are still soldiers."
