This cautious attitude is one

ity in the future. With the presidential elections out of the way, all indications point to period of steady improvement in

Purchase of Molsons Bank. As you are no doubt aware, there couraging. In the twelve months' has always existed a close, friendly period to October 31st the aggregate connection between this Bank and the of \$12,000,000 for the same period, value of this commerce was \$160,000,- Molsons Bank since the latter's in-000 greater than in the preceding ception. The sons of a past Presiyear, the total being \$1,895,000,000.
We have been able to reach this large amount chiefly because of the enormous western grain crop in 1923, it was deemed advisable to amalmous to the solution of the solution and the solution and, in a survey of economic condiand, in a survey of economic condi-gamate the shoisons balk with a from another point of the tion necessary to amend our bylaws tions, there is no more satisfactory stronger institution, and we were figures indicate the ability of the tions, there is no more satisfactory stronger institution. was greater volume, this year there sary here to enter into the details, while there is this excess banking shareholders bylaw No. 4 be amended is greater value. Farm products have, as these will be submitted to you at capital in the country, borrowing as follows:

My last word is a word of confidence and encouragement. The interests of your Bank are more closely bound up with those of Canada than ever before, and unless Canada prospers the Bank cannot expect the shrinkage is again recorded, so much superior to those of other countries for the farmer the price had adwhile lower prices may account for while lower prices may account for attract citizens. It stands third some of this decrease, the cause must amongst the countries of the world be attributed to a quiet condition of domestic trade. A gratifying feature of the statistics of foreign trade is ish Empire our mines produced in of the statistics of foreign trade is ish Empire; our mines produced in the growth of favorable balance. In 1923, \$214,000,000 worth of metals, vielded favorable crops has naturally the last seven months, the excess of and the surface is scarcely scratched. exports over imports amounted to Canada stands second in the world been reflected in improved financial \$120,000,000, as compared with an in coal deposits. Her water powers excess of \$15,000,000 in the correaction are estimated at 18,000,000 horseexcess of \$15,000,000 in, the corresponding period of last year, and if sponding period of last year, and if power, and she enjoys unexcelled transportation facilities. For those twelve months' period, the favorable balance is found to be still greater. Western Canada offer a means of work, the cheap, rich lands of the work with a large volume of loans in Western Canada, has continued its tradition of fair dealing with its customers and has extended with its customers and has extended every assistance to those who have the comparison is carried over a twelve months' period, the favorable balance is found to be still greater. I regard this increase in Canada's foreign trade credit as an augury of a not distant improvement in domestia business.

I regard this increase in Canada's foreign trade credit as an augury of a not distant improvement in domestia business.

I regard this increase in Canada offer a means of foreign trade credit as an augury of a not distant improvement in domestia business.

I regard this increase in Canada offer a means of the corresponding week of the corresponding week of business and has extended able to take a little from its formable to work, the cheap, rich lands of every assistance to those who have suffered repeated crop failures. We have followed a policy calculated to better competence than can be observed in times and the customers and has extended to with its customers and has extended able to take a little from its formable to take a little from its formable to to take a little from its formable to the very few words.
