But unfortunately there are certain ills which conspire to destroy the pleasure of this time in life and they are usually of a decidedly painful nature.

The kidneys are often the first of the bodily organs to fail. Then the poisonous acids which should be eliminated by the kidneys circulate in the blood and cause backache, rheumatism, lumbago and the many ailments which make life so miserable.

There has, perhaps, never been a medicine so well suited for people of advancing years as Dr. Chase's Kidney-Liver Pills.

The Kidneys are the filters of your body

THE kidneys are two bean-shaped organs situated in the lumbar region of the upper part of the abdomen. Through them flows all the blood in your body every three minutes. After being cleansed by the kidneys of all impurities and waste matter, the purified blood is then returned to the circulation.

If these most important organs of your body, the kidneys, become inflamed or congested, they are unable to function correctly. Then your blood circulates through your body heavy with poisons and waste matter, setting up conditions that will cause a serious, and perhaps fatal illness.

How are you to know the condition of your Kidneys?

If you have constant headaches, pains in the back, a frequent desire to urinate, accompanied by a burning sensation, swelling of the joints or black specks floating before your eyes-any one of these symptoms is Nature's warning that you have kidney trouble. You must heed such warnings immediately.

There is no better remedy in the world for kidney troubles than Gin Pills. These pills remove the obstructions and heal the inflamed condition of the kidneys, restoring them to full activity. Gin Pills are the recognized specific for all kidney troubles. They positively restore the kidneys to a normal condition.
